

Comments from Previous Registrants

What was the most important impact on you as a family physician?

- Became a better listener and have more self-confidence
- More tools to apply to different situations
- The program raised my comfort level in counselling, particularly for couples and families
- MUCH improved my counselling skills, patients and I are happier
- Better timing with input, stopped being a fixer
- Enjoy the counselling aspect of my practice more
- Greater awareness of counter-transference issues; self-analysis

How did it change your practice?

- Do more counselling, I look forward to counselling sessions
- I have set aside specific hours for counselling
- Feeling more comfortable and probably more competent in doing psychotherapy; better use of time, selection of patients
- I can now do a lot of psychotherapy myself, rather than referring everyone; able to decide which patients I can counsel, and which I refer
- More focused work when counselling
- Learned how to set limits
- Gave me better tools to use
- Felt better knowing other family physicians face similar problems as mine

What techniques have you applied in your practice?

- Cognitive behavioural therapy
- Beck Depression Inventory
- Mind over Mood Workbook
- Active listening
- Solution-focused therapy: miracle questions, scaling, and reframing
- Brief supportive psychotherapy
- Role playing and empty-chair techniques
- C.A.G.E. Questionnaire
- Genograms, Family Life Cycle
- Listening exercises for couples
- Grief Counselling
- Sexual Counselling
- Too numerous to list!

Program Objectives

This interactive program will provide an intensive year-long introductory program on current approaches and techniques to help physicians increase their knowledge and clinical skills in office counselling and psychotherapy.

At the conclusion of this program, participants will have:

- Increased their feeling of competence in office counselling and psychotherapy
- Enhanced their ability to work with psychosocial issues and the patient-doctor relationship
- Increased the time they spend in practice doing psychotherapy with individuals and families or couples
- Increased their overall comfort levels in counselling individuals, couples and families

Target Audience

Family Physicians in active practice who are either doing or considering to do Counselling and Psychotherapy as part of their practice. This program is particularly valuable for those who did not receive training in Counselling and Psychotherapy in medical school.

Certificate

Participants successfully completing this program will be presented with a certificate from the Department of Family and Community Medicine, Faculty of Medicine, University of Toronto.

Accreditation

This Group Learning program has been certified by the College of Family Physicians of Canada for up to 210 Mainpro+ credits.

This educational activity is approved by the Medical Psychotherapy Association Canada for 65 Group CE Credits and 18 CCI Credits.

The Program

The program will consist of mostly practice-based interactive learning. The group will meet in Toronto for five weekends (Friday evening, all day Saturday and Sunday morning). There will be reading assignments, as well as mentoring.

- Workshops by experts in the field
- Discussion of participants' therapy with their patients
- Small group processing
- Live demonstrations of techniques
- Opportunity to practice skills
- Practical ways of integrating psychotherapy and counselling into general practice
- **There will be four small group mentoring sessions between each weekend throughout the program. Those coming from a far distance will be accommodated through an internet meeting modality.**

Organizing Committee

Mel Borins, MD (Program Director)

Ed Bader, MA

Stephen Holzapfel, MD

Ginny McFarlane, MD

Tat-Ying Wong, MD

Fees

\$2830 + 13% HST CAD for the year-long program, including materials. A deposit of \$500 +HST CAD is required on application.

Receipts of Payment are issued by e-mail only.

Cancellation

Requests for cancellation must be made in writing. Registrations are not transferrable.

The University of Toronto reserves the right to cancel events. Registrants will be notified at the earliest possible date in the event of a cancellation.
