

Pathology Update

Practical and Emerging Issues in GU and Surgical Pathology

November 3-4, 2017

Doubletree by Hilton Toronto Hotel

Dear Colleague,

We are pleased to announce this year's Pathology Update will take place on November 3-4, 2017 at the Doubletree by Hilton Hotel in Toronto, Ontario and we welcome your participation.

This two-day symposium is designed to highlight recent advances in surgical pathology with corresponding clinical correlation and prognostic implications. We are thrilled to have **Dr. Jesse McKenney**, from the **Cleveland Clinic** join us as our keynote speaker for the 2017 symposium which will focus on ***"Practical and Emerging Issues in GU and Surgical Pathology."***

The conference is designed as a full day program on November 3rd and a half day program on the 4th. The program includes large group learning activities and case discussions with several program breaks providing the opportunity to visit the corporate supporters and to socialize.

In 2016 we had a very successful symposium with more than 200 attendees. We look forward to building on the success of this meeting and expect an even greater number of attendees in 2017. We would like to invite you to be part of this meeting by considering participation in our supporter program (please see column on right). We would also be pleased to discuss any other additional support options with you.

For more information or to confirm your commitment of support, please contact Stacie Bellemare, MEd, CMP at 416.946.8389 or stacie.bellemare@utoronto.ca

Sincerely,

The 2017 Pathology Update Planning Committee
