CEPD's **vision** is international leadership in improving health through innovation in continuing education and research.

Our **mission** is to fulfill our social responsibility by developing CEPD leaders, contributing to our communities, and improving the health of individuals and populations through the discovery, application and communication of knowledge.

We stand behind our **values**:
- Accountability
- Integrity
- Interprofessionalism
- Social responsibility
- Inclusiveness
- Innovation
- Life-long learning

REPOSITIONING THE CEPD PORTFOLIO

Over this past academic year, Continuing Education and Professional Development (CEPD) has begun to reorganize and reposition itself as a strategic partner in transforming healthcare in Ontario and beyond through alignment of Faculty and provincial priorities and through innovations in continuing education and professional development. CEPD is committed to being an important partner in transforming healthcare and to supporting innovations in all aspects of health professions education. This shift has started right here at CEPD with major changes within our portfolio.

A major area of change is in Academic CEPD & CEPD Research where Drs. Suzan Schneeweiss and Simon Kitto are leading the way in creating new and greater scholarship capacity in the CEPD portfolio.

Dr. Schneeweiss joined us this year as Academic Director CEPD, overseeing new program development and expanding the use of technology in all CEPD offerings. She has reached out to all Faculty of Medicine Department CEPD Directors and Leaders to further engage CEPD faculty leadership and identify their specific needs as both scholars and providers of CEPD. Our hope is to create an even more welcoming and supportive environment for all CEPD scholars.

Dr. Kitto leads our growing CEPD Research team, which is building bridges across CEPD, Knowledge Translation, Quality Improvement and Patient Safety with a focus on work-based CEPD, Continuous Inter-professional Education, and the use of new technologies to remain current on advances and trends in medicine and healthcare delivery.

The Innovations + Education Office (i+e) has newly arrived on scene and is the cornerstone of our faculty’s innovation in education agenda. Dr. Peter Azmi, the unit’s inaugural Business Development Officer, has established services to facilitate commercialization of educational copyrighted products and services, public/private partnerships, academic business case development, legal review requests and contract negotiations and management.

CEPD’s two-time award winning Event Management System (EvMS) has also undergone a transformation and has been rebranded as Events Evolved (EvE): a one-of-a-kind academic event management system that provides Information Technology (IT) solutions for all aspects of managing a CEPD office – from registration, abstract management, and evaluations – to full financial support capabilities. CEPD has just added its 4th external member to a growing client list of Canadian Universities and other medical education providers. Featuring a fully redesigned modular, multi-lingual interface, and a flexible pricing structure, EvE will bring innovative new services and learning tools to both providers and learners of continuing education and professional development.

Also new to the portfolio this year is our Strategic Communications division introduced to transform and integrate all communications across CEPD; to leverage U of T’s global reputation in all our products and services; and to enhance CEPD’s reputation by rebranding the portfolio and its components with a strong market-driven platform and value proposition.

CEPD has also been preparing to house The Advanced Clinician Practitioner in Arthritis Care (ACPAC) Program in the upcoming year and looks forward to welcoming this innovative, interprofessional, certificate-based clinical education training program in advanced musculoskeletal/arthritis care to its new academic home. Hosted by St. Michael’s Hospital, in collaboration with The Hospital for Sick Children, and accredited through CEPD, the program is intended to prepare experienced physical therapists, occupational therapists and nurses for extended practice roles and to facilitate the development of innovative models of arthritis care across various clinical settings in Ontario.
As part of the CEPD Portfolio, the Standardized Patient Program (SPP) has implemented new initiatives and programming which include:

- In January 2013, a new website was launched www.spp.utoronto.ca. The site was designed with capabilities for online booking and will offer access to training modules in 2014. SPP also launched a joint database development project with CEPD Information Services to produce streamlined business processes, timely access to information and data, and an improved user experience.

- SPP was awarded significant funding to create a program to assist Internationally Educated Health Professionals (IEHPs) to better integrate into the Canadian workforce. The program has developed five e-learning modules to provide a repository of practice eligible material for IEHPs to use for professional development throughout their careers.

- As part of the Health Arts and Humanities Program at the Faculty of Medicine, SPP will be offering an elective course entitled Theatre and Medicine: Performance as a process for developing reflection and communication skills in healthcare.

- SPP continues its consultation with Peel Regional Police to develop live simulation and facilitate training in approaching and addressing individuals with mental health concerns. This work is being presented at the International Crisis Intervention Conference in 2014.

- A CIHR grant was completed which adapted live simulation methodology for recruiting and training People Living with HIV and engaging them by inviting them to act as Patient Instructors (PHA_PI) for second year medical students. Preliminary findings have been published and disseminated through various peer-reviewed journals and presented at the Canadian Conference of Medical Education – CCME 2013 in April, with another presentation to follow at the 2013 Ontario HIV Treatment Network Annual conference in November.

Finally and most importantly, this year saw our 5 Year CACME Accreditation Review. While the official verdict is still out, we anticipate very favorable results based on preliminary feedback received from our site surveyors that will reaffirm CEPD’s position as a national and international leader in CEPD. Many thanks to Susan Rock and our professional CEPD team who led us through the documentation and accreditation process.

Strategic directions for the new academic year include, but are not limited to CEPD:

(1) Renaming and rebranding CEPD
(2) Moving forward with initiatives to further engage Faculty of Medicine alumni through a single registration platform for all CEPD events
(3) Expanding use of IT-Educational tools in CEPD offerings
(4) Expanding impact of CEPD research, and
(5) Taking a leadership role in Global and Indigenous Health CEPD.

Thank you ALL for your contributions and commitment to excellence in health professions education. This has been a great year for CEPD and there is more exciting positive change to come as we work to realize our vision and further position CEPD as a partner in the transformation of healthcare in Ontario and beyond. The opportunities are boundless.

Innovation and impact in CEPD through research
Continuing Education and Professional Development underwent its quinquennial review by the Committee on Accreditation of Continuing Medical Education (CACME) in March 2013.

As part of the intense preparation for this external survey, CEPD planned an internal review of strategic directions, activities, policies and process. To that end, a one-day site visit was scheduled in October 2012 to help prepare faculty and staff for the types of questions that would arise during the actual visit. Dr. Douglas Sinclair, Executive Vice-President and Chief Medical Officer for St. Michael’s Hospital, Toronto, and Ms. Ginny Jacobs, Director, Continuing Medical Education, University of Minnesota were invited to assess CEPD preparations. This was an invaluable process, with the reviewers highlighting areas of expertise and areas for improvement.

With this feedback, CEPD was able to finalize the documentation and presentation for the site survey scheduled for March 21-22, 2013. CEPD implemented a webinar session to include all faculty and staff who would be part of the survey process. The interviewees were guided through the schedule of the survey and the prepared materials. The format of a synchronous facilitated webinar, over a lunch hour, worked well and the interviewees were able to ask questions of CEPD leadership.

Dr. Brenda Cholin, Medical Health Officer, Prairie North Health Region, Northwest Central Saskatchewan, and Dr. Jocelyn Lockyer, Senior Associate Dean of Education, Faculty of Medicine, University of Calgary were the designated CACME site surveyors. A full two-day schedule of interviews occurred with faculty and staff resulting in very positive verbal feedback at the end of the survey. While not part of the official CACME criteria, the surveyors commended CEPD for the preparation and documentation of the submitted report.

The recommendations of the site surveyors is submitted to CACME, who in turn review this, along with the CEPD report, to determine the final outcomes of criteria ranking. It is expected that CEPD will have the official CACME results in October 2013.
Year 1 (2012-13) of the Academic Strategic Implementation Plan for 2011-2016 saw CEPD entering a period of great transformation as we began to implement initiatives in support of our goals and principal strategic priorities:

1. Enhance Best Practice & Faculty Development for Continuing Education

2. Advance Research, Innovation & Scholarship

3. Strengthen & Grow Practiced-Based Education

4. Foster & Embed Quality Improvement in Continuing Education

5. Promote Patient & Public Engagement

The charts in the following pages highlight CEPD accomplishments during the past year, identifying key objectives within and external to the University that play a role in shaping the future direction of CEPD. CEPD will build upon its strengths and achievements and report annually on how it has responded to current opportunities and imperatives, including the Faculty of Medicine’s focus on integration, innovation, and impact.
## Strategic Priority 1: Enhance Best Practice & Faculty Development for Continuing Education

  - Rounds 2%
  - Web-based 6%
Recognizing the importance of applying best practices in course identification, design, development, delivery and measurement, CEPD offers free access to Education Consulting experts to advise Course Directors on best practices in continuing education and professional development, program development/design (needs assessment, objectives, education/learning formats), evaluation strategies and other essential components of accreditation/sponsorship—all consistent with delivering outcome-based continuous learning experiences.

The design and development of continuing education, especially in the dynamic field of healthcare, involves leveraging a distinct set of skills, and represents a unique area of expertise which includes knowledge of adult and organizational learning principles, systematic educational design and evaluation methodologies.

Given the changing demographic of healthcare professionals—and therefore how they “learn”—combined with ongoing developments in learning techniques and best practices in general, the following services are an invaluable resource for Course Directors and offer support throughout the year to better enable delivery of outcome-based continuous learning experiences:

**Program design:** support and training for needs assessment methodologies, writing learning objectives, choosing effective methodologies and developing evaluation strategies.

**Accreditation process:** assistance with the CEPD course proposal system and facilitation of the accreditation process, ensuring that courses meet the standards for U of T accreditation and sponsorship, which should ultimately expedite the accreditation process for Course Directors.

**Specialized training:** teaching, audience interaction and facilitation techniques for both small and large group situations.

**One-on-one coaching:** personalized training for presentation and facilitation skills.

**Special interest learning modules:** topics include effecting and measuring change; developing communities of practice; advanced needs analysis techniques; identifying and working with educational influencers; practice-based learning and outcomes measurement.

CEPD’s Education Consultants ensure that important health issues and learning best practices are identified, understood and addressed in program design and delivery, to foster improved health outcomes.
4th National Accreditation Meeting – September 2012, Toronto
“Applying Quality Improvement Framework to CME/CPD Planning and Implementation”

Family Medicine Forum – November 2012, Toronto
“Core Competencies for Safe Opioid Prescribing”

MainProC Workshops:
“Applying Clinical Practice Guidelines in Family Practice”
“Optimal Use of Web-Based Continuing Professional Development Resources”
“Strengthening your CanMEDS-FM Professional Role in Family Practice”

Canadian Conference on Medical Education (CCME)
April 2013, Quebec City
Oral presentation: “Comprehensive Family Practice Review: Developing CanMEDS Roles in Family Practice”
Poster: Integrating CanMEDS Roles into a Comprehensive Family Practice Program

3 Presentations to: College of Physicians and Surgeons of Ontario (CPSO) Council, Quality Assurance Committee, and Educational Committee

DFCM Walter Rosser Day – April 2013
Poster: Comprehensive Family Practice Review

Dalhousie Webinar-based Education Conference – May 2013
“Assessing Complex Chronic Pain”
Association for Medical Education (AMEE) Annual Conference  
August 2012, Lyon, France

**Workshop:** “How to design and conduct focus groups for needs assessment and program evaluation.” This 2.5 hour interactive workshop presented with Lee Manchul was very popular and many who wanted to attend were unable to do so. A complementary webinar organized by AMEE was conducted in October of 2012 and aired to a further audience.

4th National CPD Accreditation Conference – September 2012, Toronto  
*Hosted by The College of Family Physicians of Canada (CFPC) and the Royal College of Physicians and Surgeons of Canada (RCPSC)*

Guest Faculty for session on creating collaboration between accredited providers in Canada in identifying resources to meet accreditation requirements.

**Webinar** on the role of coaching versus mentoring in CEPD. Presented to members of the self-directed lifelong learning subcommittee of the Standing Committee on Continuing Medical Education/Professional Development (SCCPD).

Best Practices in CEPD Webinar Series  
Five webinars were presented between October 2012 and May 2013.

Special Projects

Creation of a new Quick Tip on Conflict of Interest. This was requested by the College of Family Physicians of Canada (CFPC) and completed in partnership with the University of Manitoba.

Continuing Education Directors & Leaders (CEDL) Meetings

Assessed patterns and reasons for attendance and non-attendance. Twenty people were interviewed with results and recommendations reported. Several changes have been made to the frequency, content and structure of the meetings as a result.

Co-Director for Innovative Programs:

**Best Practices in CEPD Webinar Series**

**Continuing Education Leadership Program (CELP)**

**Foundations in Continuing Health Education**

**Essential Skills in Continuing Education and Professional Development (ESCEPD)**
ACADEMIC PROGRAM DEVELOPMENT

This year, CEPD has begun the process of transforming and evolving its academic capacity. A key part of this initiative, since joining CEPD as Academic Director mid-year, is reaching out to CE Directors and Leaders in the Faculty of Medicine’s departments to establish closer relationships and get a better understanding of their needs, so that CEPD can expand and improve its offerings and support. Another key area is realizing the academic impact of CEPD leaders and the development of much more awareness of CEPD as a career choice.

CEPD has strategically invested in further enhancing its internal capacity for program development. In partnership with the CEPD Research Group, focus will be on Quality Improvement (QI), Performance Improvement (PI), Interprofessional Education (IPE), and analysis of trends and changes in CEPD.

INNOVATIVE PROGRAMMING

CEPD has begun a full review of its innovative suite of programs to expand their reach and impact, and to develop new courses with a special emphasis on IPE, workplace outcomes, more effective evaluation and the use of new technologies.

Currently, with approval from the College of Physicians and Surgeons of Ontario (CPSO), CEPD has developed and offered the Comprehensive Family Practice Review, Medical Record Keeping, and Safe Opioid Prescribing programs.

In addition, CEPD has identified other new programming areas including professional development for continuing health educators: Foundations in Continuing Health Education and Continuing Education Leadership Program (CELP). www.cepd.utoronto.ca/che-professional-education/

The Foundations in CHE is now the basis for an international CEPD initiative for an Essential Skills in CE PD pre-conference at the next Association for Medical Education in Europe (AMEE) conference. Faculty from CEPD will be involved with the development and implementation of this program in 2013.

Further description of CEPD’s innovative programs follow:
INNOVATIVE PROGRAMMING

ACPAC
Advanced Clinician Practitioner in Arthritis Care Program

In the academic year 2013-14, The Advanced Clinician Practitioner in Arthritis Care (ACPAC) Program will be joining CEPD as its academic home. ACPAC is an innovative, interprofessional, academic and clinical education training program in advanced musculoskeletal/arthritis care hosted by St. Michael’s Hospital, in collaboration with The Hospital for Sick Children. It is a certificate-based program offered at the post-licensure level accredited through CEPD. The program focuses on the assessment, diagnosis, triage and independent, but collaborative management of select musculoskeletal (MSK) and arthritis related disorders in adults, children and adolescents. The aim of the program is to prepare experienced physical therapists, occupational therapists and nurses for extended practice roles and to facilitate the development of innovative models of arthritis care across various clinical settings in Ontario.

Best Practices in CEPD
Webinar Series

Best Practices in CEPD is a new webinar series focusing on essential skills in continuing education for healthcare professionals who are involved in planning and delivering continuing education courses, conferences and lectures. Sessions will be conducted live with opportunity to engage in interactive discussions with presenters and healthcare professionals with similar interests.

Topics include:

Best Practices in Continuing Education
Technology and Learning: Application to personal learning
Technology and Learning: Application to course design
Evaluation: Beyond the satisfaction survey
Effective Presentations
Medical Record-Keeping is a one-day interactive workshop with case-based exercises, peer assessment exercises and training on practice tools. With active engagement in this workshop participants will be better able to:

- Maintain Medical Records to ensure quality of care, continuity of care, assessment of care, and evidence of care.
- Navigate and apply the components and direction in the CPSO Medical Records Policy.
- Assess and improve medical records according to criteria defined in the Policy.

This course is formally recognized by The College of Physicians and Surgeons of Ontario (CPSO).

Safe Opioid Prescribing is a series of three courses (webinar, workshop and skill development) that assists physicians in acquiring knowledge and learning new skills in the field of pain management, especially in the area of chronic non-cancer care. With active engagement in this series of courses, participants will be better able to:

- Develop multi-modal approaches to complex chronic pain.
- Initiate and manage safe and effective opioid therapy.
- Prevent and address addiction to prescription opioids.
- Develop communication and collaboration practice skills to better manage opioid therapy for chronic pain patients.
The Comprehensive Family Practice Review, an innovative program built on the CanMEDS-FM framework, is designed to equip primary care physicians with high quality skills for 21st century practice. CanMEDS-FM Roles will be developed in the context of a deeper exploration of clinical topics relevant to family practice. Therapeutic themes will include chronic disease management, family medicine across the life cycle, preventive medicine and health promotion, mental health, and challenging situations in practice.

- Conveniently scheduled over five weekends throughout the year – Friday afternoons through Sunday mornings
- Small group classroom sessions, case-based learning
- Web-based learning sessions in a university computer lab
- Preparatory and post-application exercises with key practice tools
- A community of support and coaching (optional one-on-one coaching as needed)

Practice Skills in Primary Care offers the individual modules of the Comprehensive Family Practice Review. It addresses the specific CanMeds Roles including Communicator, Collaborator, Manager and Professional. There are six day-long small group interactive workshops offered:

- Patient Centred Communication
- Challenging Communication
- Clinical Collaboration
- Professionalism and Ethics
- Web-based Resources for Family Practice
- Creating Change in Clinical Practice
Dr. Simon Kitto has been the Director of CEPD Research since 2010. Under Dr. Kitto’s leadership, the CEPD research foci are:

1. Self-directed learning through innovative use of technology
2. Continuing interprofessional education in the workplace
3. Strategic integration of continuing education theories, methodologies and practices with Quality Improvement, Knowledge Translation and Patient Safety initiatives, and
4. The involvement of patient and family in interprofessional teamwork and education.

The CEPD research program aims to strengthen the linkages between CEPD and knowledge translation, quality improvement, and patient safety, both at the level of investigator collaboration and in the focus of research projects.

Dr. Kitto has brought together a diverse and knowledgeable team of research professionals. Their interests include: quality improvement, knowledge translation, and the improvement of organizational performance and patient safety outcomes (Associate Director, Dr. Eman Leung); interprofessional collaboration and the integration of modalities (Research Associate, Joanne Goldman); interprofessional education and professional power (Research Associate, Rachel Grant); qualitative research methods and innovation in qualitative data analysis (Research Manager, Natasha Kachan); knowledge translation and quality of care, health informatics, and medical education (Information Specialist, Laure Perrier); and critical/social perspectives of patient and family–centered care (Research Associate, Sarah McMillan).

**VISITING SPEAKER**

The CEPD Research Team hosted visiting speaker Dr. David Price, National CPD Director from Kaiser Permanente, Colorado, USA, at the University of Toronto on May 6-8, 2013.

Dr. Price presented at the Continuing Education Director & Leaders meeting on Monday May 6, 2013. He gave an interactive discussion that overviewed the structure of Kaiser Permanente (KP), the organization of CME within KP, and shared some of their successes and ongoing opportunities.

Dr. Price had a very engaging small group meeting with Jeff Goodyear, Director of the Health Human
Resources Policy branch and Stephanie Akers, Planning Analyst of the Ministry of Health and Long-Term Care (MOHLTC). They discussed lessons learned in ‘The Kaiser Permanente’ journey of developing and implementing population-based guidelines across a large geographically diverse and dispersed organization, and how some of KP’s learning and experiences seemed applicable to the province of Ontario (which has a similar population to the number of covered lives in KP).

Dr. Price presented a much-awaited webinar on May 8, 2013. The webinar was targeted to all those interested in opportunities for collaboration in Continuing Education (CE), Quality Improvement (QI), Knowledge translation (KT) and Patient Safety (PS). The interactive session overviewed the structure of Kaiser Permanente (KP), and the KP guideline development and implementation processes. Dr. Price discussed trying to work across the QI, KT and CME silos in KP.

We were honored to have Jeff Goodyear, Director of the Health Human Resources Policy branch; Minn Alikhan, Director of the Health Quality Branch; Denise de Sousa, MOHLTC Senior Policy Analyst; Dr. Ross Baker, Professor in the Institute of Health Policy, Management, and Evaluation at University of Toronto; Dr. Philip Ellison, Family Physician in the Department of Family and Community Medicine (DFCM) at the University Health Network (UHN), among many other professionals who joined us for the webinar.

We hope to develop a long-lasting and strategic relationship with Dr. Price and Kaiser Permanente, as we move forward in developing a greater understanding of the constitutive elements of integrated interventions into health care systems.

Dr. Price’s webinar presentation on “Working across Quality Improvement, Knowledge Translation, Patient Safety and Continuing Education: The Kaiser Permanente Journey to Break through Silos” is available for viewing on CEPD’s website: www.cepd.utoronto.ca/david-price/

David W. Price, MD, FAAFP, FACEHP is a board certified Family Physician who has been with the Colorado Permanente Medical Group (CPMG) since 1988. A past CPMG Department Chair of Family Medicine and past member of CPMG’s Innovation Support Team (focused on quality and process improvement), Dr. Price has been the CPMG Director of Medical Education since 1998. Dr. Price is also a physician investigator with the Kaiser Permanente Colorado Institute of Health Research, (where he also is co-director of the Center for Health Education, Dissemination and Implementation research). Dr. Price is also Director of Medical Education for The Permanente Federation and the Kaiser Permanente Care Management Institute in Oakland, CA. A Professor of Family Medicine at the University of Colorado Denver Health Sciences Center, Dr. Price has also been active in the Colorado (Past-President) and American Academies of Family Physicians (delegate, committee memberships). Dr. Price served on the American Board of Family Medicine (ABFM) Board of Directors from 2003 – 2008, where he chaired the R&D and Examination (Maintenance of Certification) committees, and was ABFM Board Chair from 2007-2008. He currently serves on the board of Directors of the Accreditation Council for Continuing Medical Education. Dr. Price has authored or co-authored over 30 peer-reviewed publications, and from 2000-2012 was the guideline development/update lead and lead author on Kaiser Permanente National Evidence-Based Guidelines on the diagnosis and treatment of Major Depression and Attention Deficit Hyperactivity Disorder. He has given numerous local, state, and national CME presentations on a variety of topics. Dr. Price and his wife, Dianne Glenn, MD (also a CPMG Family Physician) have three beautiful (teenage!) daughters.
ACHIEVEMENTS

Dr. Simon Kitto

March 2013 – Under the leadership of Dr. Ori Rotstein, Associate Chair of the Department of Surgery, Dr. Kitto passed his Continuing Appointment Review (CAR).

May 7, 2013 – As member of the Wilson Centre’s Qualitative Research Atelier Series Team, Dr. Kitto was awarded the Helen P. Batty Faculty Development Award for Innovation in Program Development and Design at the Faculty of Medicine’s 11th Annual Education Achievement Celebration held at the Great Hall in Hart House, University of Toronto.

Rachel Grant completed a Master of Nursing Degree in Leadership in Health Policy and Education from Ryerson University on June 7, 2013.

Rachel is also the recipient of Ryerson University’s Spring 2013 “Master of Nursing Writing” and the “Faculty of Community Services Dean’s Graduate Essay Writing” Awards for her paper on “Improving Health Care through Social Media in Northern and Rural Communities.”

ACTIVITIES

CEPD’s Research Team has had a busy year attending and presenting at multiple International and National Medical conferences and society meetings including the following:

- Canadian Association of Continuing Health Education (CACHE) Conference
- Association of American Medical Colleges (AAMC) Annual Meeting
- Society for Academic Continuing Medical Education (SACME) Annual Meeting
- All Together Better Health (ATBH) Conference
- Association for Medical Education (AMEE) Annual Conference
- Collaborating Across Boarders (CAB) Conference
- Guideline International Network (GIN) Conference

Speaking in general on Continuing Education, Patient Centered Education, Interprofessional Education, Knowledge Translation, Quality Improvement, and Patient Safety, Dr. Kitto presented his work this past academic year in Toronto, Quebec, Vancouver, California, Wisconsin, Colorado, Hawaii, Japan, France and Finland — altogether giving 17 conference presentations, 2 invited speaker keynotes and chairing a session in Japan.

Joanne Goldman presented her work on Interprofessional Education in Toronto, Vancouver and Japan.

Laure Perrier presented 4 posters on Knowledge Translation in Newfoundland, Toronto and Germany.
RICE SUMMARY
Research in Continuing Education

The Research in Continuing Education (RICE) group aims to foster scholarship, research and innovation in continuing education (CE) at the University of Toronto.

The specific objectives of RICE are:

1. To highlight innovative and emerging areas in CE research.
2. To build a community of practice in CE scholarship and research at the University of Toronto.
3. To increase research capacity to conduct CE scholarship and research.

Co-chaired by Drs. Simon Kitto and Nancy Salbach, this was the fifth full academic year of RICE since its inception in 2007. RICE meetings are held five times a year with a summer hiatus. Researchers, scholars and clinicians within the University of Toronto community with an interest in CE research are invited to attend.

This year RICE co-chairs implemented a new format designed to address RICE objectives. This new format comprised a combination of invited presentations on innovative research, research in progress presentations by RICE members, and presentations by Continuing Education and Research Development (CERD) Award winners. The following RICE meetings took place at the University of Toronto CEPD office and attracted both core members and other interested academics. The following colleagues presented:

**September 18, 2012**
*Invited presentation: Kathy McGilton,* “Implementing Person-Centered Communication Care Plans in Practice: Is it possible?”

**November 20, 2012**
*Research in Progress Presentations:*
Joanne Goldman, “An ethnographic study of interprofessional collaboration in discharge in general internal medicine: Work in progress.”

**January 22, 2013**
*CERD Grant Recipient Presentations:*
Elizabeth Hanna & Heather MacNeill, “Building Community in COIL (Collaborative Online Interprofessional Learning): The experience of the online facilitator.”

**March 19, 2013**
*Invited presentation: Paula Rowland,* “Clinicians as ‘Safety Scientists’: Implications for continuing education and professional development?”

**May 14, 2013:**
*Invited presentation: Cathy Evans,* “Spanning Boundaries in an Online CE Course to Support Evidence-Based Physiotherapy Practice in Manual Therapy Across Social Networks.”

Continuing Education Research and Development (CERD) Award Program

The CERD grant competition is held three times per year. Grants up to a maximum of $5,000 are awarded to fund CE research relevant to the mission of the CEPD Office. The co-chairs of RICE, Drs. Kitto and Salbach and RICE members Ms. Joanne Goldman and Dr. Eman Leung, with administrative support from Ms. Vashty Hawkins, were responsible for adjudicating and managing the CERD Award program. The following grants were awarded in 2012-2013:

**September 2012 Award Recipients**
Nicole Kester-Greene (Sunnybrook Health Sciences Centre), “Neonatal Experience in Resuscitation for our Department (NERD): A randomized trial of the educational effectiveness of an interprofessional in-situ simulation training intervention compared with a standard clinical observership.”

Sagar Parikh (Department of Psychiatry, Faculty of Medicine, University of Toronto), “Stigma and Bipolar Disorder: A novel knowledge translation initiative.”

**January 2013 Award Recipients**
David Wiljer (Centre for Addiction and Mental Health), “An Evaluation of Meaningful Family Involvement and Participation within the Online Course: Collaborating with families affected by concurrent disorders.”

Allan Okrainec (Toronto Western Hospital), “Barriers to the Uptake of Surgical Telementoring: The perspectives of Canadian general surgeons.”

**April 2013 Award Recipients**

Jane Topolevec-Vranic (St. Michael’s Hospital), “Traumatic Brain Injury and Homelessness: The educational needs of homeless shelter care providers.”
**RICE GRANTS**

Research in Continuing Education

Peer-Reviewed

**Recipients:** Brouwers M, Bhattacharyya O  
**Project:** Innovations to enhance the capacity of practice guidelines to improve health and healthcare systems: AGREE-REX (Recommendation Excellence)  
**Agency:** Canadian Institutes of Health Research (CIHR)  
**Amount:** $602,124 CAD  
**Term:** 2013 Aug - 2016 Mar

**Recipients:** Harris S, Bhattacharyya O  
**Project:** Transformation of Indigenous Primary Healthcare Delivery (FORGE AHEAD): Community-driven Innovations and Strategic Scale-up Toolkits  
**Agency:** Canadian Institutes of Health Research (CIHR)  
**Amount:** $2,500,000 CAD  
**Term:** 2013 Apr - 2018 Mar

**Recipients:** Stewart M, Bhattacharyya O  
**Project:** Patient-Centred Innovations for Persons with Multimorbidity  
**Agency:** Canadian Institutes of Health Research (CIHR)  
**Amount:** $2,500,000 CAD  
**Term:** 2013 Apr - 2018 Mar

**Recipients:** Liu P, Campbell NRc, Tobe SW, Yeates K, Bhattacharyya O (C), Kilonzo K, Lum-Kwong M, Wentworth J  
**Project:** DREAM-GLOBAL: Diagnosing Hypertension - Engaging Action and Management in Getting Lower Bp in Aboriginal and LMIC - A Research Proposal  
**Agency:** Canadian Institutes of Health Research (CIHR)  
**Amount:** $1,804,100 CAD  
**Term:** 2012 Jul - 2017 Jun

**Recipients:** Aaron S, Gupta S  
**Project:** Strategies to Improve Diagnosis and Treatment of Asthma in Canadians  
**Agency:** Canadian Institutes of Health Research (CIHR), Operating Grant (Health Services Committee)  
**Amount:** $1,162,410 CAD  2012 Jul - 2013 Jun: $232,482 CAD (prorated)  
**Term:** 2011 Jul – 2016 Jun

**Recipients:** Gupta S  
**Project:** EAAPS - The Electronic Asthma Action Plan System for Implementation in Primary Care. Knowledge Translation in Asthma Study  
**Agency:** Canadian Institutes of Health Research (CIHR), Knowledge-to-Action Grant  
**Amount:** $198,302 CAD  2012 Jul - 2013 Jun: $99,151 CAD (prorated)  
**Term:** 2011 Apr – 2014 Mar

**Recipients:** Garvey N, Liskai C, Cafazzo J, Gupta S  
**Project:** Consumer Access to Personal Health Information for Asthma Self-Management  
**Agency:** Canada Health Infoway  
**Amount:** $1,362,000 CAD  2012 Jul – 2013 Jun: $527,226 CAD (prorated)  
**Term:** 2012 Jun – 2014 Dec
RICE GRANTS
Research in Continuing Education

**Recipients:** Ohshima N, Bontje P, Oneyama H, Yoshiura T, Reeves S, Kitto S  
**Project:** Interprofessional disaster preparedness for Japanese health care students and professions  
**Agency:** Ministry of Health, Japan  
**Amount:** $133,000 CAD  
**Term:** 2013 – 2016

**Project:** An integrated multi-faceted knowledge translation intervention to improve bone health in men receiving androgen deprivation therapy for prostate cancer.  
**Agency:** Canadian Cancer Society, Knowledge to Action Grants.  
**Amount:** $99,919 CAD  
**Term:** 2013 – 2015

**Recipients:** Reeves S, Mischo-Kelling M, Tappeiner W, Lochner L, Vittadello F, Kitto S  
**Project:** Interprofessional collaboration within the health professions in South Tyrol, Italy: How do the different professions view and evaluate the current status of inter-professional collaboration  
**Agency:** National Agency: Provincia Autonoma di Bolzano Italy  
**Amount:** €272,625 EURO  
**Term:** 2013-2015

**Recipients:** Morrow R, Norwood C, Kitto S, Alexis K, Tiburcio J  
**Project:** Peer Education with Intersecting Networks: The SACME Project in South Bronx Public Housing - Implementing the Diabetes Prevention Program Among those Most at Risk and their Healthcare Providers  
**Agency:** Society for Academic CME Research Support Grant  
**Amount:** $10,000 USD  
**Term:** 2013-2014

**Recipients:** Reeves S, Kitto S, Provonost P, Grouper M, Aboumatar H, Wachter B  
**Project:** Understanding the nature of interprofessional teamwork in intensive care units: A multi-institutional ethnographic study  
**Agency:** Gordon & Betty Moore Foundation, California  
**Amount:** $2,167,937 USD  
**Term:** 2012–2015

**Recipients:** Masiello I, Löfgren S, Ericson A, Bolinder G, Reeves S, Kitto S  
**Project:** Interprofessional competencies in a student-led clinical setting  
**Agency:** Karolinska University Hospital, Karolinska Institutet  
**Amount:** $162,000 AUD  
**Term:** 2012

**Recipients:** Moulton CA, Murnaghan ML, Martimianakis T, Kitto S  
**Project:** Pressures on surgeons to ‘measure up’ and their effects on surgical judgment  
**Agency:** Physicians’ Services Foundation  
**Amount:** $99,043 CAD  
**Term:** 2011-2013
RICE GRANTS
Research in Continuing Education

Recipients: Parikh S.V, Michalak, E.
Project: “Quality of Life, Stigma, and Bipolar Disorder: A Collaboration for Change”
Agency: Canadian Institutes for Health Research
Amount: $200,000 CAD
Term: 2010-2012

Recipients: Parikh S.V, Michalak, E., Hawke LD
Project: Stigma and bipolar disorder: A novel knowledge translation initiative
Agency: University of Toronto CEPD Research Fund
Amount: $5,000 CAD
Term: 2012-2013

Recipients: Michalak, E and Parikh S.V.
Project: Improving Care and Wellness in Bipolar Disorder:
A collaborative knowledge translation network
Agency: Canadian Institutes for Health Research
Amount: $600,000 CAD
Term: 2011-2014

Project: Identifying Intensive Care Unit Discharge Planning Tools
Agency: Canadian Institutes of Health Research
Amount: $49,982 CAD
Term: 2012-2013

Project: Systematic reviews of the evidence that tests for chronic cerebrospinal venous insufficiency (CCSVI) are valid and reproducible, that CCSVI is associated with multiple sclerosis, and of the benefits and harms of endovascular therapy for multiple sclerosis.
Agency: Canadian Institutes of Health Research
Amount: $99,300 CAD
Term: 2012

Recipients: N Salbach
Project: Bringing Research Findings into Action to Improve Walking Recovery After Stroke
Agency: Early Researcher Award-Round 8, Ontario Ministry of Economic Development and Innovation
Amount: $150,000 CAD
Term: 2012 April – 2018 March

Project: Evaluating the uptake of a new evidence-informed e-resource module for rehabilitation professionals to enhance the care and treatment of people living with HIV and AIDS (PHAs).
Agency: Canadian Institutes of Health Research Knowledge to Action
Amount: $195,258 CAD
Term: 2012 March – 2013 March
Recipients: M MacKay-Lyons, N Salbach, M Ploughman
Project: Enhancing health outcomes and well-being of stroke survivors through improved clinical application of cardiovascular fitness interventions: Development of an implementation trial of best practice recommendation
Agency: CIHR Meetings Grant competition, March 2012
Amount: $20,000 CAD
Term: 2011 May – March 2013

Project: StrokEngine: An interactive e-learning resource for moving evidence-based stroke rehabilitation into clinical practice – Continuation Project
Agency: Canadian Stroke Network
Amount: $254,700 CAD
Term: 2010 April – March 2013

Recipients: N Salbach, J Clyde, D Brooks, J Cameron
Project: Evaluating the psychometric properties of the Evidence-based practice confidence (EPIC) scale among occupational therapists
Agency: Continuing Education Research and Development Award, Faculty of Medicine, University of Toronto
Amount: $3,413 CAD
Term: 2011 July – 2012 June

Recipients: N Salbach, S Jaglal
Project: Evaluating test-retest reliability and construct validity of a new scale measuring self-efficacy to implement evidence-based practice among physiotherapists
Agency: University of Toronto Faculty of Medicine Dean’s Fund Award
Amount: $9,999 CAD
Term: 2007 July – 2012 June

Recipients: Silver I, Sargeant J, Mann K, Holmboe E
Project: Performance feedback to inform self-assessment and guide practice improvement: Developing and testing a feedback facilitation model
Agency: Society for Academic CME Manning Award
Amount: $100,000 USD
Term: 2011 – 2013

Recipients: Rosewall T, Butler A, Higgins J, Slapnicar E, Wiljer D
Project: The 8th Annual Toronto Radiation Medicine Conference; RTi3: Inquire, inspire & innovate
Agency: Canadian Institutes of Health Research (CIHR)
Amount: $20,000 CAD
Term: July 2011-June 2012
RICE GRANTS
Research in Continuing Education

Project: Building Capacity for Quality: A Realist Evaluation of a Co-Learning Model for Resident Education and Faculty Development in Quality Improvement
Agency: University of Toronto, Department of Medicine Educational Scholarship & Research Grant
Amount: $12,712 CAD
Term: 2013 Jan - 2013 Dec

Project: Teaching medical error disclosure skills to postgraduate internal medicine, surgery and pediatrics trainees
Agency: Royal College of Physicians and Surgeons of Canada (The). AMS/CanMEDS Research and Development Grant
Amount: $24,804 CAD
Term: 2012 Jul - 2014 Dec

Recipients:  Matlow A, Borschel T, **Wong BM**, McDonald-Blumer H
Project: Integrating a focus on quality of care into a longitudinal ambulatory care rotation
Agency: University of Toronto. Education Development Fund for Innovation in Education
Amount: $10,275 CAD
Term: 2012 Jul - 2013 Jun

Project: Seeing the forests and the trees: Innovative approaches to exploring heterogeneity in systematic reviews of complex knowledge translation interventions to enhance policy decision making.
Agency: Canadian Institutes of Health Research (CIHR), Operating Grant, 275038
Amount: $200,634 CAD  2012 Jul - 2013 Jun: $63,358 CAD (prorated)
Term: 2012-2013

Project: Translating evidence to improvements in care and outcomes for people with diabetes
Agency: Canadian Institutes of Health Research (CIHR), Partnerships for Health Services Improvement competition, 276737
Amount: $24,995 CAD  2012 Jul - 2013 Jun: $11,536 CAD (prorated)
Term: 2012-2013

Awarded but Declined

Recipients:  Stroud L, **Wong BM**, Coffey M, Papia G, Nousiainen M, Atkinson A, McDonald-Blumer H, Matlow A
Project: Teaching medical error disclosure skills to postgraduate internal medicine, surgery and pediatrics trainees
Agency: University of Toronto. Education Development Fund for Innovation in Education.
Amount: $15,846 CAD
Term: 2012 Jul - 2013 Jun
Non Peer-Reviewed

**Recipients:** Stewart M and Bhattacharyya O
- Lead on $375,000 subgrant entitled: Seamless Care to Optimize the Patient Experience
**Project:** Primary Health Care Program
**Agency:** Ontario Ministry of Health and Long-Term Care
**Amount:** $3,720,000 CAD
**Term:** 2013 Apr - 2016 Mar

**Recipients:** Bhattacharyya, O
- Project: Innovations in Maternal and Child Care, Malaria and TB: Analysis of the Center for Health Market Innovations Database
- Agency: Results for Development Institute Inc.
- Amount: $89,811 USD
- Term: 2012 Dec - 2013 Jun

**Recipients:** Bhattacharyya, O
- Project: Reported Outcomes Strategy and Performance Measurement: Analysis of the Center for Health Market Innovations Database
- Agency: Results for Development Institute Inc.
- Amount: $129,996 USD
- Term: 2012 Jan - 2012 Dec

**Recipients:** Kitto S, Reeves S
- Project: Evaluation of Future Learning Environments: How Space Impacts Learning
- Agency: Karolinska Institutet
- Amount: $35,000 AUD
- Term: 2011-2013

**Recipients:** N Salbach
- Agency: Team Optimize grant, Toronto Rehabilitation Institute-University Health Network
- Amount: $10,000 CAD
- Term: 2012 March -

**Combined CEPD Research Funding:** $19M+ CAD*

*Total of all Peer-Reviewed and Non Peer-Reviewed grants converted to CAD dollars.

**Peer-Reviewed Report**

This has been an extremely successful year for CEPD Events. We have exceeded our expectations in the number of annual events managed by over 40%. The “a la carte” menu of services is being continued as we have realized an increase specifically in ‘registration only’ and partially managed events.

Paperless registration was introduced 3 years ago, and fully implemented this past June. Our registration system has been enhanced and we are now working on an improved version of the original.

A few event highlights from this past year:

**The Connaught Global Challenge International Symposium**, held September 27-29, 2012, marked the official opening of the Fraser Mustard Institute for Human Development at the University of Toronto. It attracted an international, trans-disciplinary group of basic, biomedical, and social scientists who explored issues in early childhood development, focusing both on the current state of research, as well as on how collaborations across disciplines, approaches and paradigms can synergize to impact new thinking.

The inaugural **Competency-Based Education Training Program** was held at the MaRS Discovery District on April 30, 2013. Eighty Chairs, program directors, and educators of orthopaedic residency training programs across North America met to discuss best practices in the design and implementation of surgical curricula.
CEPD sponsored and managed the North American Refugee Health Conference held June 6–8, 2013. This meeting, created by Dr. Anna Banerji, CEPD’s newly appointed Director of Global and Indigenous Health, started in 2009 as the Canadian Refugee Health Conference and merged with a United States based refugee health meeting in 2013 to become the North American Refugee Health Conference. Over 300 registrants from across Canada, the United States, and around the world came together to discuss pressing issues related to refugee and migrant health.

Social Media usage has increased with our efforts towards a paperless environment and events may incorporate event marketing strategies utilizing e-mail blasts, Twitter, Facebook and LinkedIn. Event specific websites and e-journals are predominant in event advertising while direct mail postcards have been replacing traditional brochures. Password protected syllabi are accessible for download from event websites as an alternative to printed syllabi.

There has been an increase in synchronous webinar offerings to Family Physicians as part of a blended learning format and these have been extremely popular and well received. We also worked closely with the Division of Respirology and the Silverman Centre at Mount Sinai Hospital on a webinar series specifically created for Medical Staff in Dubai.
INFO SERVICES

Information Services has continued to develop its technological and analytical capabilities over the past year. To support our overall objectives, which are to propose and support new and innovative ways of carrying out the CEPD mission, we have added 3 new staff members who bring with them a wealth of experience and enthusiasm in areas as diverse as systems analysis, programming, and technical support and training.

CEPD continues to develop and support its Event Management System (EvMS) software and its growing list of clients:

- University of Toronto
- University of British Columbia
- University of Manitoba
- University of Ottawa
- SimONE

Work continues apace on the newest iteration of that software, called Events Evolved (EvE). EvE is designed as next-generation web software and uses the latest in Javascript frameworks and a back-end API framework.

EvE

Events. Evolved.

CEPD has started experimenting with EdX (for massive open online courses – MOOCs) and using Adobe Connect (for webinars) in order to start offering new ways for learners to further their education both synchronously and asynchronously from wherever they may be. This is consistent with the overall mission of the University which is to move in this direction generally and with EdX specifically.

CEPD is also moving into the hardware realm, and has implemented a prototype device to display academic posters on-site with custom hardware controllers. This was built using the Raspberry Pi single-board computer and openFrameworks, which is specifically designed for real-time interactive media. The prototype was successfully demonstrated exhibiting 10 academic posters on one large LCD rental screen during the Moving Beyond Pediatric Incontinence conference in June 2013.

CEPD’s web design and development services continue to grow. We are working with other University Departments and community partners to enhance and develop their web presence. While seeking these new opportunities, CEPD maintains its existing web properties. We manage over 50 WordPress websites. We have made a strong push to ensure our Event Websites are mobile ready using the latest in responsive design techniques. Next year we will continue to enhance our mobile presence.
The concept of “reputation management” was introduced in the fall of 2012 to transform and integrate all communications across CEPD; to leverage U of T’s global reputation in all products and services; and to enhance CEPD’s reputation by rebranding the portfolio and its components with a strong market-driven platform and value proposition.

Mr. Marc Giacomelli joined CEPD in late fall as a Consultant reporting directly to the Vice Dean, responsible for reputation, brand, public relations, and integrated management of all internal and external communications. Mr. Giacomelli was enlisted to help CEPD put forth effective, efficient, consistent and coherent messaging across all segments of its portfolio. Plans are underway to consolidate all CEPD communications using a reputation management framework and rebranding strategy in alignment with the University of Toronto’s visual identity standards.

Under Mr. Giacomelli’s leadership, CEPD Graphics and Marketing will be working more closely with CEPD Information Services to improve and strategically transform all communications. This collaborative approach has already begun with our social media initiative, which has expanded to focus on disseminating and publicizing the works, mission and activities of CEPD and its operational clusters. Articles, resources, and announcements relevant to continuing professional development, and to our clients and learners, are shared through Facebook, LinkedIn, Twitter, and our Connect blog.

Marc Giacomelli is a writer, creator and creative consultant based in Toronto who has done work for the The Globe and Mail, NBC/CBC series SCTV, and the University Health Network (UHN). His recent work includes ‘It’s Not What You Think’ a documentary on emergency room conditions in Ontario, ‘AGO Transformation’ a film on Ken Thomson and Frank Gehry’s transformation of the Art Gallery of Ontario and being a creator and founding member of OpenFile.ca, a community driven digital news network in 7 cities across Canada.

Marc is a founding partner and ongoing consultant to Naked Creative Consultancy and creative consultant to Intellectual Capital and Joe Hill Communications doing branding, communications and fundraising for Autism Speaks USA in partnership with the NHL; The Globe and Mail; University Health Network, Peter Munk Cardiac Centre, Krembil Neuroscience Centre, Princess Margaret Hospital, The Campbell Family Cancer Research Centre and the Hospital for Sick Children. He is also a proud member of the Canadian Army Reserve, being a 2nd Lieutenant (retired) in the Queen’s Own Rifles of Canada.
Congratulations to CEPD’s 2011-2012 Award Winners who were acknowledged at the Faculty of Medicine’s 11th Annual Education Achievement Celebration.

The Colin R. Woolf Awards were named to honour Dr. Colin R. Woolf, one of the first generation of chest physicians in Canada. After Dr. Woolf stepped down as Head of Respirology at Toronto General Hospital, a position he had held for over a decade, he assumed the role of Associate Dean for CME at the University of Toronto and continued to disseminate the basics of interactive CMEs and push the level of high standards of University of Toronto faculty. This award recognizes excellence in course coordination, teaching and long-term contributions.

Excellence in Course Coordination
Dr. Albino Chiodo
Department of Otolaryngology – Head & Neck Surgery
“Otolaryngology Update”

Teaching Excellence
Dr. Marcus Burnstein
Department of Surgery

Long-Term Contribution to Continuing Education
Dr. Mary Bell
Department of Medicine

The Fred Fallis Award in Online Learning was named to honour Dr. Fred Fallis who had a long and distinguished career in Continuing Education. The first Assistant Dean in Continuing Education in the Faculty of Medicine, University of Toronto (1982-85), Dr. Fallis was one of the founders of Telemedicine for Ontario, which later became Telemedicine Canada. After retiring from his position as Assistant Dean, Dr. Fallis became the Medical Director of Telemedicine Canada (1985 to 1995).

Award Recipient:
Dr. Heather MacNeill
Division of Physiatry, Department of Medicine

The Ivan Silver Innovation Award in CEPD recognizes an innovative CEPD initiative that demonstrates an effect on health professional performance or health outcomes. The award is named for CEPD’s last Vice Dean, Dr. Ivan Silver, who is a leader and mentor to many who have pursued an academic career in Continuing Education. His vision has been to broaden the definition of CE to include improvements in professional and healthcare team behaviour, quality improvement and healthcare outcomes.

Award Recipient:
Dr. Peter Selby & the CAMH Nicotine Dependence Clinic Program Team, Department of Psychiatry

The Interprofessional Education (IPE) Team Continuing Education Award recognizes excellence in work designed to enhance interprofessional team practice to improve healthcare delivery. With increasing recognition of the importance of healthcare teams in the provision of quality healthcare, CEPD professionals are developing interprofessional team CE activities designed to enhance interprofessional team practice.

Award Recipient:
Drs. Rene Wong & Catherine Yu
Department of Medicine

Photo credit: ©2013 Gustavo Toledo Photography
Peter Slinger, MD, CCFPC, Certif. ABA, CPSQ, FRCPC, Certif. Periop. TEE

Professor, Department of Anesthesia, University of Toronto
Chair, Continuing Medical Education Committee
Coordinator, Senior Resident Respiratory Seminars

Dr. Peter Slinger is currently Professor of Anesthesia at the University of Toronto and on staff at the University Health Network – Toronto General Hospital. His area of interest is Anesthesia for Thoracic Surgery, with specific interests in pre-operative assessment, management of one-lung anesthesia, peri-operative lung injury and trans-oesophageal echocardiography.
Overall CEPD Goals:

1. **Enhance Best Practice & Faculty Development for Continuing Education**
   - Expand Anesthesia CMEPD programs

2. **Advance Research, Innovation & Scholarship**
   - Increase Simulation in CMEPD

3. **Strengthen & Grow Practice-Based Education**
   - Facilitate education training for new faculty

4. **Foster & Embed Quality Improvement in Continuing Education**
   - Improve the quality of teaching by established faculty

5. **Promote Patient & Public Engagement**
   - Increase internet information available on anesthesia

Total events: 8
2012-2013 Activities (other):

**Faculty Development Day**
November 10, 2012
Chestnut Centre, Toronto, Ontario
Director: Martin van der Vyver

**Senior Promotions Workshop**
February 4, 2013
Fitzgerald Building, College Street
Director: Martin van der Vyver

**Focused Transthoracic Echocardiography**
April 26, 2013 - April 1, 2014
Toronto General Hospital, Toronto
Director: Annette Vegas

**Career Planning Workshop**
May 27, 2013
Fitzgerald Building, College Street
Director: Martin van der Vyver

Web-Based Learning:

**CME Online Anesthesia Rounds**
This program has been enlarged to 18 educational modules. This program has been developed by Sharon Davies (MSH). These modules have been accredited by the University of Toronto CE PD office for Section 3 RCPSC credits. In 2011, 867 modules were completed. These modules can be accessed through the U of T Anesthesia Department website under “Education/Continuing Medical Education”:
www.anesthesia.utoronto.ca

Innovations:

New faculty introductory teaching program developed.

Achievements:

Remedial teaching program for established faculty.

Objectives for 2013-2014:

1. Continue to expand CME/PD committee membership to Community hospitals.

2. The Anesthesia Dept. CME/PD committee is developing a fund to grant peer-reviewed research awards to Anesthesia faculty for CME/PD investigations.

Committee Terms of Reference:

1. **Committee Name(s):**
   - Continuing Medical Education Committee, Department of Anesthesia
   - Continuing Professional Development Committee, Department of Anesthesia

2. **Type:**

3. **Chairperson(s):**
   - Peter Slinger (CME); Martin van der Vyver (CPD)

4. **Responsible to:**
   - Executive Committee Department of Anesthesia

5. **Purpose:**
   - To promote CME Anesthesia courses and projects within the department.
   - To oversee the annual Toronto Anesthesia Practice meeting.
   - To promote continuing professional development within the department.
   - To extend CME activities to the anesthesia community outside the university.

6. **Authority:** Operates under the authority of the Executive Committee Department of Anesthesia

7. **Timeframes, Reporting and Deadlines:**
   - (4 meetings/year)
Committee TOR (cont’d)

8. **Composition:**
   - Chairperson
   - CME representatives for each hospital:
     - St. Michael’s Hospital
     - Sunnybrook Health Sciences Centre
     - Mount Sinai Hospital
     - Toronto General Hospital
     - Toronto Western Hospital
     - Women’s College Hospital
     - Hospital for Sick Children
     - North York General Hospital
   - CME Course Director Representative
   - Vice-Chair Education:
     - Department of Anesthesia
   - Chair Department of Anesthesia

9. **Staff Support:** Provided by the Chair

10. **Other Resources:**

11. **Communication with Executive Committee through:** the Chair to the Vice-Chair Education who is advisory to the Chair of Anesthesia

12. **Specific Areas of Responsibility:**

13. **Approval / Review Date:**
John Axler, MD
Assistant Professor, Department of Family & Community Medicine
University of Toronto

Dr. John Axler graduated from the University of Toronto in 1968, interned at the Toronto Western Hospital and was in full-time active clinical family practice since 1969. In June 2012, he retired from full-time practice and now does locums. He obtained his certification from The College of Family Practice in 1999 and his fellowship in 2009.

Dr. Axler is an Assistant Professor in the Department of Family and Community Medicine and is currently the Director of Continuing Education for that department. He has been actively involved in CME for over 30 years, including being the Course Director for Primary Care Today from 2003 to 2012 and Saturday at the University as well as many other CME projects. He is the 2009-2010 co-winner of the U of T Faculty of Medicine Colin Woolf award for Long-term Contribution to Continuing Education and the 2011 co-winner of the DFCM Excellence in CME award. He has helped develop over 150 accredited CME programs and is the co-author of the MD Passport Nutrition e-newsletter.
Overall CEPD Goals:

1. **Enhance Best Practice & Faculty Development for Continuing Education**
   - Expand the scope of all CE activities
   - Be more broad-based

2. **Advance Research, Innovation & Scholarship**
   - Provide and foster an environment within all of the teaching sites that will encourage and allow freedom to do research, innovation and scholarship.
   - Keep all members of the department current with available grants and other funding and professional development opportunities in these areas as they become available.

3. **Strengthen & Grow Practice-Based Education**
   - Design, implement and evaluate programs that are inter-professional, international, multidisciplinary and multi-media.

4. **Foster & Embed Quality Improvement in Continuing Education**
   - DFCM has a QI Program Development Chair, Dr. Phil Ellison who is heading up a 3-year initiative for QI in many areas of DFCM’s work including CEPD. One of its goals is to provide the nutrients to grow the canMEDS – FM roles in CEPD which are rooted in the 4 principles of family medicine.

5. **Promote Patient & Public Engagement**
   - Involve Non-Healthcare Professionals in training Family Doctors.

2012-2013 Activities (other):

**Adult Procedural Sedation Course**
May 16, 2013
SimSinai Mount Sinai Hospital
Director: Sev Perelman

Research:

Every two months, the Research Program hosts Research Rounds, a two-hour interactive event focusing on primary care research and research practices. Rounds are open to all Primary Care / Family Medicine students, researchers, faculty, preceptors, staff and their collaborators. There are 2 aspects to these rounds. Attendees learn about new research from an invited guest speaker and they also are brought up to date about research in progress.

Events in the past year included:

**September 20, 2012**
**Presenter:** Dr. Richard Birtwhistle
Director, Centre for Studies in Primary Care
Department of Family Medicine
Queen’s University

**Research in Progress:** Dr. Rick Glazier
DFCM Professor and Clinician Scientist

**November 22, 2012**
**Presenter:** Dr. Sheila Dunn
DFCM Associate Professor and Clinician Scientist

**Research in Progress:** Dr. Mel Kahan
DFCM Assistant Professor and Clinician Scientist

**March 21, 2013**
**Presenter:** Dr. Brian Hodges
Vice-President Education
University Health Network
Scientist, Wilson Centre for Research in Education

**Research in Progress:** Professor Lorraine Ferris
Associate Vice-Provost
Health Sciences Policy and Strategy
University of Toronto

**January 17, 2013**
**Presenter:** Dr. Deirdre Dawson
Senior Scientist, Rotman Research Institute, Baycrest

**Special Presentation:** Dr. Bjug Borgundvaag
DFCM Assistant Professor and Clinician Investigator
Scholarship:

The Department encourages scholarship partly through the provision of peer-reviewed awards to individuals and groups. In 2012-2013, the following awards were made through the Professional Development Program:

- Community-based Contributor to Professional Development
- Excellence in Continuing Education
- Excellence in Faculty Development
- Excellence in Research in Professional Development
- Jamie Meuser Award for Excellence in Leadership and Innovation in Professional Development
- Learner: Contributor to Professional Development
- Mentorship
- New Leadership in Professional Development

The Department itself also makes awards to individuals and groups who have contributed most significantly and substantially to growth, innovation and collaboration within Family and Community Medicine.

CPD Publications:

CPD Presentations:

Innovations:

Dr. Pieter Jurovic and Danielle Simpson have seen their hard work come to fruition. On April 26, 2013, the Department of Family and Community Medicine (DFCM) at the University of Toronto launched a website called DFCM Open. Inspired by open knowledge and collaboration initiatives, such as the open source software movement, DFCM Open (www.dfcmopen.com) will collect and store clinical, educational and research material that is created, peer-reviewed and voluntarily submitted by its faculty members and their collaborators. Presented in a state-of-the-art website, DFCM Open will provide a wide range of Canadian content focused on family medicine and primary care.

DFCM is believed to be the very first academic family medicine department in the world to create and open such a repository to the world, providing resources locally and globally, while fostering, sustaining and expanding scholarship and academic activity at the Departmental level. The work found in DFCM Open will continue to build upon the DFCM’s international reputation for clinical, educational and research excellence.

DFCM Open is a resource especially for family physicians and primary care health professionals, no matter where they live or practice. It provides community family physicians with a connection to professional resources; and it is free to use.

Achievements:

Professional Development Program Awards

Jamie Meuser Award for Excellence in Leadership and Innovation in Professional Development
Dr. Viola Antao, Women’s College Hospital

Excellence in Continuing Education
Dr. Carol Kitai, Women’s College Hospital

The QI Program Faculty Development Group
Ms. Margaret Bucknam, Dr. Yee-Ling Chang, Dr. Phillip Ellison, Dr. Kate Hodgson, Ms. Kelly Kay, Dr. Alan Monavvari, Ms. Trish O’Brien, Dr. Jamie Read, Ms. Mary-Kay Whittaker, Dr. Brian Wong

Excellence in Faculty Development
Junior Promotions Communication Strategy Group
Dr. Brian Da Silva, Ms. Christianne Green, Dr. Charlie Guiang, Dr. Naznin Lalani, Dr. Marcus Law, Ms. Marie Leverman, Dr. Gwen Sampson, Dr. Barbara Stubbs, Dr. Judy Thompson, Dr. Tony D’Urzo, Dr. Gihane Zarifa

Excellence in Research in Professional Development
The 2011 ‘Understanding and Improving Work, Life and Leadership among Family Medicine Faculty’ Survey Team
Dr. Viola Antao, Dr. Flo Kim, Dr. Paul Krueger, Dr. Jeff Kwong, Mr. Christopher Meaney, Dr. David White

New Leadership in Professional Development
Teaching of the Social Determinants of Health in Family Medicine
Dr. Emmanuelle Britton, Dr. Praseedha Janakiram, Dr. Eileen Nicolle, Mr. Pierre Robichaud

New Leadership in Professional Development
Dr. Tara Kiran, St. Michael’s Hospital

Learner Contributor to Professional Development
Dr. Chase Everett McMurren
UHN Toronto Western Hospital
Objectives for 2013-2014:

1. For Continuing Education to become more multidisciplinary and interdisciplinary.

2. DFCM is developing a 5-year strategic plan moving forward from 2014. We will be meeting to see where PD and CE will be positioned in this department for the next 5 years.

3. We still have a waiting list for the Basics Program, so this successful program will continue to be offered this year. It is the intention of the Professional Development Committee to offer the Basics Program to all incoming faculty members within the first five years of their appointment. It is therefore important to have the resources, including space and workshop support, to allow incoming faculty to be offered the Program in a timely way.

Committee Terms of Reference

1. Committee Name: Professional Development Committee (PDC)

2. Type: Standing

3. Chairperson(s): Dr. Barbara Stubbs

4. Responsible to: Dr. Barbara Stubbs is responsible to the Chair of Department.

5. Purpose: To develop programs to attract, train, retain and nurture faculty within the department.

6. Authority: Active Committee, acting as an agent of change of program specification, delivery and review within the Department.

7. Timeframes, Reporting and Deadlines: Meets monthly with annual reports to the Chair.

8. Composition: A member from each Core Teaching Site Hospital (the PD Representative offering PD opportunities with the hospital), the PD & CE directors of DFCM and the Program Directors for the Continuing Education programs offered through the Department.

9. Staff Support: Four administrative positions support the Professional Development Graduate Studies area of the DFCM. Varying amounts of time are available throughout the year as needs change.

10. Other Resources: Resources are available through the Department in consultation with the Chair as necessary and affordable to support the program.

11. Communication with Executive Committee through: Dr. Barbara Stubbs

12. Specific Areas of Responsibility:

   Faculty Development (FD) and Related Activities:
   • To conduct needs assessments at defined intervals of the FD requirements in teaching, administration and research of the members of the DFCM;
   • To link FD activity across all sites;
Committee TOR (cont’d)

• To act as a consultative body to the undergraduate education FD day, the Teaching Practices FD day and other department-wide FD sessions;
• To develop, and conduct when appropriate, FD activities to address a defined area pertinent to the entire DFCM;
• To liaise with the Faculty Development Undergraduate Education Committee and the FD Centre of the Faculty of Medicine at St. Michael’s Hospital.

Continuing Education (CE):
• To conduct needs assessments at defined intervals of the CE requirements of the faculty and the broader community of family physicians;
• To link CE activities across all sites;
• To act as a consultative body to specific CE activities (eg. Primary Care Today conference planning groups);
• To develop and conduct, when appropriate specific CE activities to address a defined area pertinent to the entire DFCM;
• To liaise with the CE office of the Faculty of Medicine.

Career Planning/Mentoring:
• To ensure, in consultation with division chiefs, that a standardized process for faculty evaluation and career planning for all faculty is applied across all sites;
• To develop a virtual support service that will provide guidance to all graduate students;
• To develop, oversee and review the academic development plans of junior faculty and provide reports to the DFCM at the end of the three year plan;
• To assist the Chair’s Office in compiling annual CVs from all faculty across all sites;
• To oversee the teaching awards system of the DFCM;
• To award financial support from Professional Development Trust Funds.

13. Approval / Review Date:
Nadia Ismiil, MBChB, FRCPc
Assistant Professor, Department of Laboratory Medicine & Pathobiology
University of Toronto
Director, Postgraduate Education, Department of Pathology
Sunnybrook Health Sciences Centre

Dr. Ismiil is a gynecological pathologist and cytopathologist at Sunnybrook Health Sciences Centre. She obtained an MD and Master’s degree in pathology from Basrah School of Medicine in Iraq and completed her pathology residency training at Memorial University in Newfoundland. Dr. Ismiil is a fellow of the Royal College of Physicians and Surgeons of Canada and member of the Gynecologic Oncology Group.
Overall CEPD Goals:

1. **Enhance Best Practice & Faculty Development for Continuing Education**
   - Promote best practices in continuing education and professional development.
   - Foster scholarship and research in continuing education.
   - Broaden the scope and inclusiveness of continuing education (including international, interprofessional and inter-institutional including academic and community-based settings).
   - Establish the Department of Laboratory Medicine and Pathobiology as a leader in Digital Lab Medicine.
   - Support E-Learning for continuous education and LMP programs.
   - Telepathology

2. **Advance Research, Innovation & Scholarship**
   - Foster scholarship and research in continuing education.

3. **Strengthen & Grow Practice-Based Education**
   - Promotion of Practice-Based Education in Pathology courses offered at the University, with increased focus on case-based education.

4. **Foster & Embed Quality Improvement in Continuing Education**
   - Promotion of Practice-Based Education in Pathology courses offered at the University, with increased focus on case-based education and quality improvement in pathology processing, interpretation and reporting.

5. **Promote Patient & Public Engagement**
   - Promotion of the significant role played by Laboratory Medicine in the diagnosis and management of disease.

Total events: 13

Research:
More than 110 peer reviewed papers.

Scholarship:

CPD Awards Received: Dr. Jagdish Butany, Professor in the Department of Laboratory Medicine and Pathobiology was the recipient of the 2010-2011 prestigious Colin R. Woolf Award for Long-term Contribution to Continuing Education.

Innovations:

- Exploration of Simulation in Pathology as an educational tool.
- Nanotechnology and Nanomedicine in Pediatrics

Achievements:

- Pathology Update to date has been a successful self-sustaining course.
- Saturday in Pathology has also been a successful course attracting local and national attendance.

Objectives for 2013-2014:

- Build on last year’s success in courses, peer reviewed publications and workshops.
- E-Learning
- Digital Laboratory Medicine
- Completion of final stages in the establishment of a LMP CE Committee.
- Telepathology
- Increased focus on building inter-professional collaboration.
- Increased focus on fostering International collaboration and Continuous Education.

Committee Terms of Reference:

- Digital Laboratory Medicine
- Pending completion of final stages in the establishment of an LMP CE Committee.
Mostafa Atri, MD, FRCPC, Dip Epid.

Professor of Radiology and Head of Abdominal Division
Department of Medical Imaging, University of Toronto
Head, Section of Ultrasound, Joint Department of Medical Imaging
Vice Chair, Gynaecology Committee
American College of Radiology Imaging Network
Member of Gynaecology Cancer Steering Committee
Member of Gynaecology Cancer International Group
Overall CEPD Goals:

1. **Enhance Best Practice & Faculty Development for Continuing Education**
   - 2011–2012 was the second year of a 2-year Career Development Grant Program. This consists of three grants at $50,000 per year that are available for personal leadership, education or skill development. These skills must benefit the whole Department and enable us as a whole to build core resources.
   
   Three awards of 50K/year for 2 years were awarded in 2010 by the Department of Medical Imaging to be supplemented by equal amount by the recipients’ departmental practice plan.
   
   **Two of the three awards were related to medical education:**
   
   **Drs. M. Shroff and L. Probyn:**
   “Improving and sustaining paediatric radiology education:
   An innovative and transferable paediatric radiology education program”
   
   **Dr. A. Donovan:**
   Pursue advanced training in medical education (complete a master’s thesis project), engage in educational research, and participate in undergraduate curriculum development.

2. **Advance Research, Innovation & Scholarship**
   - An OIME award was granted to Dr. Mostafa Atri to complete and expand e-teaching modules developed in real-time US. These e-teaching modules will be compared with the current standard teaching.

3. **Strengthen & Grow Practice-Based Education**
   - Pierre Lasjaunias Neurovascular Educational Team Course (Thailand)
   - Applied Health Informatics Bootcamp (in collaboration with the department of informatics of University of Waterloo)
   - Addition of new focused courses at the request and in collaboration with Ontario Association of Radiologists
   - Involvement of two staff members (Drs. Korosh Khalili and Josee Sarazin) with the Ethiopia project sponsored by University of Toronto. They have initiated a new Fellowship in Abdominal Imaging in the Addis University. Two Addis University staff are being trained in Abdominal Imaging.
   - A number of staff including Drs. Tae Kim, Huyn Jung Jang, and Mostafa Atri participated in the Ethiopia project.

4. **Foster & Embed Quality Improvement in Continuing Education**
   - Advanced Imaging Educational Courses: Interactive Courses

5. **Promote Patient & Public Engagement**

Pediatric Imaging: What every community radiologist and technologist needs to know!
June 15, 2013
Director: Govind Chavhan
Hospital for Sick Children and via Webcast

Scholarship:

CPD Awards Received: OIME summer student award of $3000 supplemented by $2000 from Chair’s office awarded to Dr. Mostafa Atri to expand a real-time ultrasound e-teaching module.
Innovations:

Dr. Mostafa Atri and a team of ultrasound technologists at Toronto General Hospital (TGH) have produced two online real-time ultrasound-teaching modules (one on liver US and one on venous US) that will be tested this year on a group of radiology residents under an IRB approved study. These are self-teaching modules that teach students scanning technique that is normally done by one to one teaching.

Objectives for 2013-2014:

- Set up a departmental CEPD committee
- The new Chair, Dr. Moody, is planning to form an educational committee.
- Dr. Moody is reviewing the success of the current grants and looking into the possibility of developing new grant initiatives in the future.

Committee Terms of Reference:

We do not have a CEPD committee.

1. Committee Name:
Each course has its own committee.

2. Type: Organ Imaging committee is a standing committee of Divisional Heads. Other courses have ad hoc committees.

3. Chairperson(s): Dr. Mostafa Atri is Chair of the Organ Imaging committee. Course Directors chair committees for other courses.

4. Responsible to: Committee members for individual CEPD activities are responsible for planning the programs.

5. Purpose: Planning different courses.

6. Authority: Limited to planning a program.

7. Timeframes, Reporting and Deadlines:

8. Composition:

9. Staff Support: Most CEPD activities are run by the University of Toronto CEPD office. One of the staff in Chair’s office helps with preparation of the annual report.

10. Other Resources:

11. Communication with Executive Committee through:

12. Specific Areas of Responsibility:

13. Approval / Review Date:
Brian M. Wong, MD, FRCPC

Assistant Professor, Department of Medicine, Division of General Internal Medicine
University of Toronto

General Internist and Clinician Educator, Sunnybrook Health Sciences Centre
Associate Director, Centre for Quality Improvement and Patient Safety (C-QuIPS)

Dr. Brian Wong is a general internist and clinician educator at Sunnybrook Health Sciences Centre. After completing his residency training in 2007, he undertook a research fellowship in patient safety funded by the Canadian Health Services Research Foundation. As part of this fellowship, he became certified as an Improvement Advisor through the Institute for Healthcare Improvement in Boston, Massachusetts. He also graduated from the Education Scholars Program in 2010. He was named the new Director of Continuing Education and Faculty Development for Quality and Safety in the Department of Medicine at the University of Toronto in 2011, and the Associate Director of the Centre for Quality Improvement and Patient Safety (C-QuIPS) in 2013. In these roles, he hopes to build capacity for quality and safety in the University of Toronto Department of Medicine, and develop new models of continuing education that align with quality improvement with the aim of improving health outcomes.
Overall CEPD Goals:

The overall vision of the Office of Continuing Education & Quality Improvement (CE&QI) is to ‘create capacity for international leadership in the development of educational innovations to advance health care quality and safety to improve patient outcomes’. This vision implicitly requires a close alignment of continuing education practices with quality improvement activities.

Three overarching goals govern the activities of the CE&QI office:

1. Lead the development, implementation and evaluation of new models of delivering continuing medical education that integrates clinical content with QI&PS content.
2. Pursue the development of innovative educational offerings for academic faculty who want to engage more actively in QI&PS work.
3. Demonstrate how QI&PS activities can contribute to academic advancement and promotion.

We have established concrete strategies aimed at achieving these goals over the short and long term. Many of these specific strategies align with the five strategic directions of the CEPD office, most notably strategies number 3 (i.e., Strengthen and Grow Practice-Based Education) and 4 (i.e., Foster & Embed Quality Improvement in Continuing Education).

Given the increased clarity around goals and short-term strategies, we established a Continuing Education & Quality Improvement committee in order to lead the implementation efforts to achieve our short-term deliverables. The committee membership comprises individuals with overlapping interests in continuing education and professional development, quality improvement and patient safety, faculty development, and education scholarship.

Research & Scholarship:

**CPD Awards Received**

*Colin R. Woolf Award for Long-Term Contribution to Continuing Education: Mary Bell*
Awarded to individuals or teams for sustained excellence in course coordination, teaching, administration, and/or research in Continuing Education in the University of Toronto Faculty of Medicine.

*Fred Fallis Online Award: Heather MacNeill*
Awarded to individuals or teams for innovation and excellence in the design and delivery of online learning for health professionals in the University of Toronto Faculty of Medicine.

*Interprofessional Team Continuing Education Award: Catherine Yu and Rene Wong*
Awarded to individuals or teams for excellence in interprofessional team continuing education and professional development designed to enhance interprofessional team practice to improve health care delivery in the University of Toronto Faculty of Medicine.

*Professional Development Program Award for Excellence in Continuing Education: Margaret Bucknam, Yee-Ling Chang, Phil Ellison, Kate Hodgson, Alan Monavvari, Trish O’Brien, Jamie Read, Mary Kay Whittaker and Brian Wong*
Awarded to individuals or teams in recognition of outstanding contributions to the Professional Development Program in the University of Toronto Department of Family and Community Medicine.

CPD Publications

**CPD Presentations**

These presentations were either reported to us or identified in a scan of the abstracts of major CPD-related conferences in 2012-2013, including: Association for Medical Education in Europe 2012 Annual Conference, 2013 Canadian Conference on Medical Education, International Conference on Residency Education 2012, AAMC Research In Medical Education 2012, Society for Academic Medical Education Fall 2012 and Spring 2013, AAMC Integrating Quality 2013, and Canadian Association for Continuing Health Education 2013.

**Oral Abstracts**

6. CHY Yu, H Halapy, R Brydges, S Hall, R Wong: Promoting efficient team-based diabetes care: Role of a longitudinal interprofessional educational outreach program. CACHE Conference 2013, June 11, 2013, Vancouver, BC.

Workshops

Symposium:

Jason Frank, Hugh MacLeod, John Maxted, Brian Wong, Gordon Wallace: Educational Innovation Symposium: Teaching Patient Safety – A Call to Action (Chair: Gordon Wallace). 2013 Canadian Conference on Medical Education, April 20-23, 2013, Quebec City, QC.

CPD Posters

These presentations were either reported to us or identified in a scan of the abstracts at three major CPD-related conferences in 2012-2013:

1. Maria Bagovich, Heather McDonald-Blumer: Teaching Arthrocentesis: A Canadian Perspective. 2013 Canadian Conference on Medical Education, April 20–23, 2013, Quebec City, QC.

2. Selena Huang, Joseph Moran, Jenny Shu, Raphael Rush, Mary J. Bell: Rheumatoid Arthritis Quality Indicators Adherence Study. 2013 Canadian Conference on Medical Education, April 20–23, 2013, Quebec City, QC.

MED

Innovations:

1. Significant contribution of several Department of Medicine members in planning, establishing and delivering a new Masters of Science with a concentration in quality improvement and patient safety offered through the Institute of Health, Policy, Management and Evaluation at the University of Toronto in 2012-2013.

2. Created a new academic job description in the Department of Medicine, named the Clinician in Quality and Innovation, which is intended to recognize scholarly quality improvement and patient safety activities and provide an academic track for recruitment and promotion.

3. Expanded the faculty/trainee co-learning curriculum in quality improvement targeting senior trainees and faculty members to include nine divisions within the Department of Medicine in 2012-2013.

Achievements:

Advancements in Research, Innovation and Scholarship in CEPD

1. Numerous publications in high-impact medical education journals.

2. Numerous large peer-reviewed grants received to support scholarship in CEPD.

3. Significant contribution to national/international continuing education conferences with respect to posters and presentations.

4. Awards received recognizing achievements in continuing education awarded by the CEPD office and the Department of Family and Community Medicine.

Lead the development, implementation and evaluation of new models of delivering continuing medical education that integrates clinical content with QI&PS content

1. The Department of Medicine entered a partnership with the Association of American Medical Colleges (AAMC) and became the first Canadian site to join the Aligning and Education for Quality (ae4Q) collaborative (https://www.aamc.org/initiatives/cei/ae4q). Led by former Vice Dean of CEPD Dr. Dave Davis, the ae4Q initiative has as its primary goal the acceleration of the alignment of CE and QI and redirecting much of CE’s efforts towards achieving system-wide quality goals. Our membership in this collaborative allows us to both access best practices and successful models of CE that align with QI taken from partner ae4Q institutions, as well as the opportunity to disseminate our local successes.

2. Delivered a half-day workshop to the Master Teacher program introducing participants who are the future clinician teachers in our Department to the alignment of continuing education with quality improvement.

3. Established a working group that will lead the design, delivery and evaluation of a new format for hospital grand rounds and city-wide divisional rounds that will feature local performance data, which are presented in order to generate discussion amongst participants and introduce the to core quality improvement tools.

4. Embedded significant quality improvement content into two large continuing education meetings (Diabetes Update 2013 Program led by Dr. Rene Wong, and the Canadian Society of Internal Medicine 2013 Annual Meeting, co-led by Drs. Stephen Hwang and Brian Wong) that traditionally focused on delivering clinical content to participants. In the latter program, the entire meeting theme is “GIM: Leading Quality Improvement”, whereby quality improvement is threaded throughout the meeting.

Development of educational offerings for faculty wishing to develop knowledge and skills in quality improvement and patient safety

1. In the second offering of the IHPME MSc in Quality Improvement and Patient Safety, 6 members of the Department of Medicine were accepted into the program; 8 Department of Medicine members graduated as part of the inaugural class in August 2013.
Achievements (cont’d)

2. 20 faculty members of the Department of Medicine and 65 senior trainees participated in the faculty/trainee co-learning curriculum in QI, which was delivered to 9 subspecialty training programs last year, and will be expanded to include 12 subspecialty training programs in 2013-14. This model was also used to develop faculty skills in teaching QI at Western University (London, ON) in the Department of Medicine.

3. Contributed to developing a national faculty development strategy for quality improvement and patient safety in Canada (the Royal College of Physicians and Surgeons of Canada – ASPIRE steering committee and curriculum design committee) and the United States (at the Association of American Medical Colleges – Te4Q steering committee).

4. Three Department of Medicine members (Brian Wong, Chris Hayes, Amir Ginsburg) served as core faculty and helped to deliver the first ASPIRE patient safety train the trainer program through the Royal College of Physicians and Surgeons of Canada in April 2013. Dr. Wendy Levinson was the keynote speaker for this 4-day certificate course.

Demonstrate how QI&PS activities can contribute to academic advancement and promotion

1. Implemented the new Clinician in Quality and Innovation academic job track for Department members for Jul 2012 (http://www.deptmedicine.utoronto.ca/Faculty/appointments/domjob.htm). Since the creation of this job description, 16 Department of Medicine members have been designated this new job description, and will lead QI activities in the various divisions in our department.

2. Established monthly meetings for new faculty in the Clinician in Quality and Innovation job track to provide ongoing professional and faculty development, mentoring and community-building as a way to provide support and ensure academic success for these individuals.

Objectives for 2013-2014:

1. Continue to lead in the advancement of research, innovation and scholarship in continuing education by presenting work at national meetings, publishing manuscripts in peer-reviewed journals, and obtaining peer-reviewed continuing education grants.

2. Pilot and evaluate a new format of “QI” rounds in each of the hospital-based Department of Medicine grand rounds and several of the divisional rounds, and, wherever possible, seeking opportunities to embed principles of “Choosing Wisely Canada” (newly launched campaign that aims to address non-evidence based overuse of healthcare resources) into these rounds.

3. Provide ongoing mentorship and professional/faculty development of the newly appointed Clinicians in Quality and Innovation.

4. Organize a retreat in the fall of 2013, where 1-2 citywide quality improvement initiatives will be featured, with the intent of engaging the CE&QI community in a dialogue around how CE could be leveraged to advance the QI initiative.

5. Continue to encourage members of the Department to seek out educational offerings to expand knowledge and skills in quality improvement and patient safety – specifically focusing on maintaining high levels of participation in the IHPME MSc in quality improvement and patient safety, the VA quality scholars program, the Centre for Quality Improvement & Patient Safety Certificate Course, and the Faculty/Trainee Co-Learning Curriculum in Quality Improvement.

6. Maintain and build linkages with local departments (e.g., Department of Family and Community Medicine, Department of Psychiatry) and national bodies such as the Royal College of Physicians and Surgeons of Canada (through our involvement with the ASPIRE program and leadership in the embedding of quality and safety principles into CanMEDS 2015) and the Association of American Medical Colleges (through our partnership with the ae4Q collaborative and involvement in the Te4Q faculty development initiative).
Committee Terms of Reference:

1. **Committee Name:** Department of Medicine Continuing Education & Quality Improvement Committee

2. **Type:** Standing

3. **Chairperson:** Dr. Brian M. Wong, Director, Continuing Education and Quality Improvement

4. **Responsible to:**
   - Vice Chair, Education, Department of Medicine and the Department of Medicine Education Executive Committee
   - Director, Quality & Safety

5. **Purpose:**
   - Establish and regularly revisit strategic vision and short term goals related to the development of new models of continuing education that align with quality.
   - Provide a forum for exchange of knowledge, ideas and innovations as they relate to continuing education and quality improvement.
   - Encourage the use of clinical performance or quality measures to guide the design and delivery of departmental continuing education activities.
   - Promote the incorporation of quality improvement concepts and skills development into the continuing education activities delivered by Department members.
   - Aligning departmental continuing education activities with local and citywide quality improvement initiatives.
   - Identify and bring forward new opportunities for dissemination and scholarship.

6. **Authority:** Advisory

7. **Timeframes, Reporting and Deadlines:**
   - 1.5 hours every 6 weeks during the academic year

8. **Composition:**
   - **Name** | **Discipline/Division**
   - Brian Wong | GIM, Director and Chair
   - Howard Abrams | GIM
   - Ryan Brydges | Educational Research
   - Bill Geerts | Respirology
   - Amir Ginzburg | GIM
   - Chris Hayes | GIM
   - Monika Krzyzanowska | Medical Oncology
   - Dorothy Lo | GIM (Oncology)
   - Anne Matlow | ID
   - Kieran McIntyre | Respirology
   - Rory McQuillan | Nephrology
   - Denyse Richardson | Psychiatry
   - Kaveh Shojania | GIM / Centre for Patient Safety
   - Christine Soong | GIM
   - Sheldon Tobe | Nephrology
   - Rene Wong | Endocrinology
   - Joel Yaphe | Emergency Medicine
   - Catherine Yu | Endocrinology
   - Christian Base | CE & QI Administration

9. **Staff Support:** Administrative Assistant, 0.7 FTE

10. **Other Resources:** n/a

11. **Communication with Executive Committee through:** Director, CE & QI

12. **Specific Areas of Responsibility:**

13. **Approval / Review Date:**
   - June 12, 2013 / Annually
Fay Weisberg, MD, FRCSC

Assistant Professor and Director of Continuing Medical Education
Department of Obstetrics & Gynaecology, University of Toronto

Dr. Fay Weisberg is a graduate of the University of Manitoba School of Medicine. Her postgraduate training was at the University of Toronto, in Obstetrics and Gynaecology and subsequently spent 6 months at the Houston Medical Center doing further postgraduate work in laparoscopic surgery.

Dr. Weisberg is an Assistant Professor in the Department of Obstetrics and Gynaecology at the University of Toronto, where she is the Director of Continuing Medical Education. She has been the Undergraduate Teaching Co-Ordinator at Women’s College Hospital in the past.

She has received numerous teaching awards, including the Colin R. Woolf Award for Teaching Excellence from the University of Toronto, Faculty of Medicine and from the Peters-Boyd Academy. She gave the Gynaecology Update at the Saturday at the University Program in the past for 10 years and is part of the International Continuing Medical Education Faculty for the University of Toronto.

Dr. Weisberg is a Fellow of the Society of Obstetrics and Gynaecology of Canada, a Fellow of the American College of Obstetrics and Gynaecology, the American Society of Reproductive Medicine and a member of both the National Menopause Society and International Menopause Society.

Dr. Weisberg has sat on a variety of Advisory Boards and working editorial Boards involved in CME presentations, including University of Toronto based educational programs.
Overall CEPD Goals:

1. **Enhance Best Practice & Faculty Development for Continuing Education**
   - Continue to provide courses and departmental rounds that are relevant and innovative to our profession.
   - Continue to provide an annual professional development day for the department.

2. **Advance Research, Innovation & Scholarship**

3. **Strengthen & Grow Practice-Based Education**
   - Continue to expand the ability for all teaching sites to view rounds.

4. **Foster & Embed Quality Improvement in Continuing Education**
   - Continue to offer courses approved by the University of Toronto.

5. **Promote Patient & Public Engagement**

Total events: 13

Innovations:

- Interhospital rounds are now provided on a monthly basis to all teaching hospitals in the GTA by using advanced technology and video feeding live rounds with interactive question periods.
- Ability to now view and interact with rounds has spread to all teaching sites including Mississauga, Credit Valley.

Committee Terms of Reference:

1. Committee Name: Continuing Medical Education
2. Type: Ad hoc committee
3. Chairperson: Dr. Fay Weisberg (until June 30, 2013)
4. Responsible to: Dr. A. Bocking
5. Purpose: To organize monthly interhospital rounds, to review courses from Department of Ob/Gyne for approval at University.
6. Authority:
7. Timeframes, Reporting and Deadlines:
8. Composition: Chairperson and ad hoc if needed.
9. Staff Support: Administrative Assistant
10. Other Resources: None
11. Communication with Executive Committee through: Monthly meetings
12. Specific Areas of Responsibility:
13. Approval / Review Date:
Debbie Hebert

Associate Professor, Department of Occupational Science & Occupational Therapy
University of Toronto

Debbie has been working in the field of occupational therapy for over 30 years. At Toronto Rehab, University Health Network, she is a corporate professional leader and clinical educator. Her research relates to two main areas, knowledge translation and neurorehabilitation. She has been chair of the Continuing Education and Professional Development Committee in the Department of Occupational Science and Occupational Therapy for the past 20 years at the University of Toronto. She is also a member of the Faculty of Medicine, Continuing Education and Professional Development Committee and co-chairs the Faculty Development Committee of this group.
Overall CEPD Goals:

1. **Enhance Best Practice & Faculty Development for Continuing Education**
   - Develop one web based course in the Neurorehabilitation group in order to reach a broader group of professionals.
   - Develop a curriculum of offerings from the Neurorehabilitation Community of Practice.

2. **Advance Research, Innovation & Scholarship**
   - Develop and evaluate one certification course in the Neurorehabilitation Stream and potentially in the Return to Work Community of Practice.

3. **Strengthen & Grow Practice-Based Education**
   - Develop the Neurorehabilitation community of practice group in OS & OT.
   - Translate OS and OT research into practice in the Neurorehabilitation community.
   - Identify a new community of practice for Return to Work.

4. **Foster & Embed Quality Improvement in Continuing Education**
   - Utilize a quality based approach to evaluate the new model of practice of CE in CE & PD.

5. **Promote Patient & Public Engagement**
   - Offer continuing education to the public based on occupational therapy practice.
2012-2013 Activities:

• To develop courses that are web based in order to reach a broader group of professionals.

No e-based courses were developed this year for the Department of OS and OT. Chair of CE & PD for OS & OT did however collaborate with Dr. Suzan Schneeweiss and Jane Tipping to develop a 5 session course on continuing education using “GO TO software” that was offered online for Faculty of Medicine and Continuing Education. Reflection on the experience will help improve new courses to be offered next year online in both Faculty of Medicine and in OT CE & PD committees.

• To develop interprofessional course offerings.

The Brain Matters course is being developed between Anatomy, Physiotherapy, Speech and Language Pathology and OS and OT departments for next year.

• To determine needs of the occupational therapy community.

A business plan based on expressed needs of the Occupational Therapy Community and a scan of CE offerings was developed. The plan proposes utilizing the Communities of Practice Model to develop further curriculum. Neurorehabilitation will be the first community. An initial meeting was held during the course of this year with people interested in the neuro area.

• To develop communities of practice which will develop creative methods of delivering continuing education.

The Play Group offered 2 workshops and produced one publication and a Peer-reviewed Conference Presentation:

2. April 16 and April 30, 2013 Network Childcare Services Play Course.

3. Title: A community service initiative: Promoting the visibility of occupational therapy while enhancing the playfulness of child care providers. Authors: Kimberley Day, Joan Vertes, Pauline Dekker, Patty Rigby, Anne Martin, Jacqueline Martin, Christie Welch and Ashley Graham Periodical: Occupational Therapy Now, Volume 15/2, March/April 2013.

• To develop a continuing education course curriculum which builds on the graduate curriculum in the Department of Occupational Science and Occupational Therapy. See business plan noted above.

• To measure course outcomes for effectiveness in a longitudinal fashion.

As we offered a limited amount of courses this year due our planning focus, we did not meet this goal.

• To offer continuing education to the public based on occupational therapy practice. See play group above.

Research:

Environmental Scan regarding continuing education offerings for Occupational Therapists, coordinated by Rachel Stack.

Scholarship:

CPD Publications

Title: A community service initiative: Promoting the visibility of occupational therapy while enhancing the playfulness of child care providers. Authors: Kimberley Day, Joan Vertes, Pauline Dekker, Patty Rigby, Anne Martin, Jacqueline Martin, Christie Welch and Ashley Graham. CPD Presentations

Innovations:

A new model for the CE and PD group has been developed and will be enacted this year.

Achievements:

Business Plan developed.

Objectives for 2013-2014:

1. **Enhance Best Practice & Faculty Development for Continuing Education**
   - To develop one web based course in the Neurorehabilitation group in order to reach a broader group of professionals.
   - To develop a curriculum of offerings from the Neurorehabilitation Community of Practice.

2. **Advance Research, Innovation & Scholarship**
   - To develop and evaluate one certification course in the Neurorehabilitation Stream and potentially the Return to Work Community of Practice.

3. **Strengthen & Grow Practice-Based Education**
   - To develop the Neurorehabilitation community of practice group in OS & OT.
   - To translate OS and OT research into practice in the Neurorehabilitation Community of Practice.
   - To identify a new community of practice for Return to Work.

4. **Foster & Embed Quality Improvement in Continuing Education**
   - To utilize a quality based approach to evaluate the new model of practice of CE in CE & PD.

5. **Promote Patient & Public Engagement**
   - To offer continuing education to the public based on occupational therapy practice.
Committee Terms of Reference:

1. **Committee Name:**
   Department of Occupational Science and Occupational Therapy, University of Toronto

2. **Type:** Standing

3. **Chairperson:** Debbie Hebert OT Reg (Ont)

4. **Responsible to:**
   Community Relations Committee and Department Chair

5. **Purpose:** To provide and evaluate learning opportunities for occupational therapists in order to advance best practices in occupational therapy which will lead to better client outcomes.

6. **Authority:** Active

7. **Timeframes, Reporting and Deadlines:**
   2-hour meeting per month

8. **Composition:** Membership includes:
   - 1 member of the Department of Occupational Therapy
   - 5 – 8 occupational therapists reflecting the changing and varied areas of practice (e.g. private practice, neurology, paediatrics, orthopaedics, psychiatry, geriatrics
   - 1 administration person from the Department of Occupational Science and Occupational Therapy
   - 1 newly graduated occupational therapist
   - Director of the Department (ex-officio member)

9. **Staff Support:**
   Courses are supported by administration assistant as needed.

10. **Other Resources:**
    - Files from previous committees
    - Meeting space
    - Seed money from CE and PD (OT) budget

11. **Communication with Executive Committee through:** Debbie Hebert

12. **Specific Areas of Responsibility:**
    - Ensure committee membership
    - Set annual objectives
    - Execute annual objectives
    - Maintain communication with department chair.
    - Membership on the Faculty of Medicine CE and PD committee.

13. **Approval / Review Date:**
    Terms of Reference reviewed annually in June for following year.
Wai-Ching Lam, MD, FRCSC

Professor, Director of Continuing Medical Education and Vice Chair of Education
Department of Ophthalmology & Vision Sciences, University of Toronto

Dr. Lam is a vitreo-retinal surgeon whose practice consists of mainly adult and pediatric retinal disorders. He and another vitreo-retinal surgeon provide surgical treatment for retinopathy of pre-maturity and other complex surgical retinal disorders in children. He is on staff at Toronto Western Hospital and The Hospital for Sick Children. He was the Residency Program Director from 2001 to 2013, and is currently the Director of Continuing Medical Education and Vice Chair of Education for the Department of Ophthalmology and Vision Sciences, at the University of Toronto. He is very active in both Resident and Undergraduate Education. He has won numerous teaching awards including the PAIRO teaching award and the Jack Crawford award for Excellency in Resident Teaching.
Overall CEPD Goals:

1. **Enhance Best Practice & Faculty Development for Continuing Education**
   Development of citywide subspecialty services that will meet regularly with one of their mandates being the enhancement of subspecialty specific continuing education based on needs analysis.

2. **Advance Research, Innovation & Scholarship**
   Departmental subspecialty service meetings will promote discussion and implementation of research and innovation with respect to each subspecialty in ophthalmology across all teaching hospitals and sites in the city. The Vice Chair of Education will oversee and coordinate this activity and to promote research and innovation.

3. **Strengthen & Grow Practice-Based Education**
   The department's continuing education and professional development events promote attendees to investigate and evaluate their care of patients, appraise and assimilate scientific evidence, and continuously improve patient care based on constant self-evaluation.

4. **Foster & Embed Quality Improvement in Continuing Education**
   Quality improvement is currently embedded at all levels of the departmental structure. Quality improvement thus has become an integral part of our discussions and meetings regarding CEPD as are the mechanisms to attain quality improvement. Feedback is regularly obtained at all events, properly analyzed and utilized to enhance the quality of future sessions.

5. **Promote Patient & Public Engagement**
   There is an active push to increase the number of events engaging patients and the public within the department. Subspecialty services will be asked to arrange Cafe Scientifiques, either through CIHR or departmental funding, allowing for knowledge translation to the public as well as an opportunity to enhance public awareness with respect to the specialty.

Research:

Academic screencasting: internet-based dissemination ophthalmology grand rounds

A pilot project evaluating the needs and preferences of ophthalmologists in Ontario was undertaken in 2008-2010. The results of the project revealed a need in the community for online ophthalmology lectures on all subspecialties. The research findings were presented at the Canadian Association Continuing Health Education conference in May 2010 and a journal article in the February 2011 issue of the Canadian Journal of Ophthalmology. The study found a great need of CME-accredited, up-to-date, high-quality lectures given by experts in the field, especially by ophthalmologists practicing in rural settings. This feedback further encouraged this initiative and propelled the efforts in increasing exposure of University Grand Rounds to the large number of ophthalmologists practicing in the community.

Target Audience: Intended audience is practicing academic and peripheral ophthalmologist. The topic would also appeal to ophthalmology residents as well as medical students interested in ophthalmology.

Activity Details: The intervention can be defined as a web-based presentation by an expert in the field. Pre- and post-presentation questions will be filled by participants to measure learning effects.

Scholarship:

Snell Publications

**Academic screencasting: internet bases dissemination of ophthalmology grand rounds**

The University of Toronto Grand Round Series is an Accredited Self-Assessment Program (Section 3) as defined by the Maintenance of Certification Program of The Royal College of Physicians & Surgeons of Canada, and approved by the Canadian Ophthalmology Society on 16/09/2011. Participant may claim a maximum of 10 hours for completing all 5 modules. Each hour has been approved for 3 credits. The program is available on MAINPORT where credits are automatically calculated.

The Canadian Ophthalmological Society has endorsed this on-line education program and has sent out an email announcement to all the members.

There are over 150 ophthalmologists from all over the country signed up at this time.

Achievements:

In 2012-2013, there is not only an increased number of accredited CE events, but also a noticeable increase in the number of non-credited public education events. The department will continue to promote and facilitate these activities.

Yvonne Chan, MD, FRCSC

Assistant Professor, Department of Otolaryngology – Head and Neck Surgery
University of Toronto

Dr. Yvonne Chan is an assistant professor in the Department of Otolaryngology – Head and Neck Surgery at the University of Toronto. Dr. Chan finished her Otolaryngology residency training at the University of Toronto and subsequently completed a Rhinology fellowship with Dr. Fred Kuhn at the Georgia Nasal and Sinus Institute. Dr. Chan obtained her medical degree and a Master of Science degree in the area of molecular genetics and molecular biology from the University of Toronto. During her medical training, she authored more than a dozen peer-reviewed publications. Dr. Chan’s subspecialty interests include rhinology and advanced endoscopic sinus surgery. She authored the chapter “Endoscopic Frontal Sinusotomy” in Dr. David Kennedy’s book Rhinology: Diseases of the Nose, Sinus, and Skull Base. She is a co-editor of the book Health Care Reform Through Practical Clinical Guidelines: Ear Nose Throat. Most recently, she is the associate editor for the world-renowned textbook K. J. Lee’s Essential Otolaryngology, 10th Edition, in which she also authored a chapter entitled “The Nose, Acute and Chronic Sinusitis”.

[Image of Dr. Yvonne Chan]
Overall CEPD Goals:

1. Enhance Best Practice & Faculty Development for Continuing Education
2. Advance Research, Innovation & Scholarship
3. Strengthen & Grow Practice-Based Education
4. Foster & Embed Quality Improvement in Continuing Education
5. Promote Patient & Public Engagement

We have not specifically developed any of these.

Dr. Al Chiodo

Achievements:

High quality courses for academic and community otolaryngologist-head & neck surgeons.

The Department of Otolaryngology continues to play an increasing and effective role in international continuing medical education and facilitating Canadian influence in international development and health systems development. This was most recently recognized in a Tribute Dinner held on June 3, 2012, at the Royal York Hotel, with the sponsorship of Mount Sinai Hospital, the University of Toronto, York University and the community. The tribute dinner honoured the health programs and multiple international projects, on the global and Middle East scene, pioneered by Dr. Arnold Noyek, Director for International Continuing Medical Education for the faculty of medicine. This highly successful event resulted in the establishment of the Dr. Arnold M. Noyek Legacy fund through the Mount Sinai Hospital Foundation. Highlights of the evening included participation and tributes by University and Hospital leadership, students mentored through the years, the Consul General of Israel and His Royal Highness Prince Firas Raad of the Royal Court of Jordan. A personal message from Prime Minister Stephen Harper was presented.

Key educational and training milestones this year, under the aegis of the University of Toronto, included the advancement of projects on the ground by the growth and development of multipoint, University of Toronto accredited distance educational programming through video teleconferencing. The durable 17-year-old network of peaceful professional cooperation across the Arab and Israeli frontier has been offering increasing and regularized CISEPO (www.CISEPO.ca) and Peter A. Silverman Global teleHealth programming involving Canadian, Israeli, Jordanian and Palestinian universities, teachers,
residents, students, nurses and health care professionals. The department facilitates these high impact multidisciplinary programs thus extending its own influence as an international academic and educational broker not only in advancing hearing health and other aspects of Otolaryngology but by engaging in a multidisciplinary manner with a variety of universities and health centers worldwide. This was exemplified by the ninth year of the highly successful and growing International Pediatric Emergency Medical Elective (IPEME) program, a group elective at the University of Toronto, faculty of medicine, involving Canadian medical students from across Canada, as well as medical students from universities in the Middle East. It is recognized by Israeli, Jordanian and Palestinian and other Canadian medical schools as a unique four-week summer exchange program for senior medical students which creates new normals across borders, faiths and cultures. It is based at the University of Toronto, McMaster University, Mount Sinai Hospital and the Hospital for Sick Children.

As the department becomes more deeply involved in global health, it is the intent of the Dr. Arnold M. Noyek Legacy fund to help establish and promote a global teleHealth studio at Mount Sinai Hospital, located in the Department of Otolaryngology. This enterprise will feature sophisticated distance education and video teleconferencing capacity to assure support of the continuing education and resident training missions of the University Department of Otolaryngology and the department at Mount Sinai Hospital. The new facility will reach out in the future to like-minded academic colleagues, nationally and internationally, who wish to engage with us in advancing Canadian values with a principled interest in continuing medical education and health innovation globally.

Objectives for 2013-2014:

1. Web conferencing of Grand Rounds to practicing otolaryngologists.

2. Further enhancement of existing courses and the creation of new hands-on and practical courses.

Committee Terms of Reference:

1. **Committee Name:** CEPD
2. **Type:** Standing
3. **Chairperson:** Dr. Yvonne Chan
4. **Responsible to:**
   Dr. Ian Witterick (Chair, Department of Otolaryngology – Head & Neck Surgery)
5. **Purpose:** To formulate CEPD programming for our Department including visiting professors, courses and Grand Rounds.
6. **Authority:** Active
7. **Timeframes, Reporting and Deadlines:** Ad hoc meetings, one CEPD Report for our Annual Report each year.
8. **Composition:** Dr. Yvonne Chan (new Director) is still formulating the members of her committee.
9. **Staff Support:** Administrative support in our University Office.
10. **Other Resources:** Nothing to report.
11. **Communication with Executive Committee through:** Report of the Director of CEPD (Dr. Y. Chan) at each Executive Committee meeting.
12. **Specific Areas of Responsibility:**
   - CEPD programming
13. **Approval / Review Date:**
Dr. Schneeweiss is an Associate Professor of Paediatrics at the University of Toronto and a staff Emergency Paediatrician at the Hospital for Sick Children. She is the Director for Continuing Education for the Department of Paediatrics and Director of Education for the Division of Paediatric Emergency Medicine at SickKids. She graduated from the University of Toronto, Faculty of Medicine and completed her paediatric residency training with a clinical fellowship in neonatology at The Hospital for Sick Children. She completed a Masters of Health Professional Education at the Ontario Institute of Studies in Education, University of Toronto in 2004. She has been a Regional Continuing Professional Development Educator with the Royal College of Physicians and Surgeons of Canada for the last two years where she is working to enhance Fellows’ understanding about recent changes to the maintenance of certification program and support life-long learning. She has recently been appointed Academic Director Continuing Education and Professional Development for the Office of CEPD, University of Toronto.
Overall CEPD Goals:

1. **Enhance Best Practice & Faculty Development for Continuing Education**
   - Provide high quality continuing education courses and conference utilizing best practice educational strategies and tools.
   - Promote excellence in continuing education with annual Department of Paediatrics Continuing Education Award.

2. **Advance Research, Innovation & Scholarship**
   - Enhance CE programs with the utilization of new technologies (e.g. iClickers and hi-fidelity simulation).
   - Develop a collaborative network in CE to promote scholarship in CE and best practice in continuing education.

3. **Strengthen & Grow Practice-Based Education**
   - Promote interprofessional practice-based education Team Training Program – an interprofessional, in-situ simulation-based program to improve team functioning in Paediatric resuscitations and trauma.
   
   **Lead:** Jonathan Pirie

4. **Foster & Embed Quality Improvement in Continuing Education**
   - Promote quality improvement CE by providing ongoing feedback and evaluations of programs.

5. **Promote Patient & Public Engagement**
   - Promote patient and public education for paediatric specific conditions through educational forums and e-learning tools such as AboutKidsHealth.

**New Developments in Prenatal Diagnosis and Medical Genetics**
May 15, 2013
Mount Sinai Hospital
Director: David Chitayat

**Faculty Development**

**TIPS – Teaching in the Paediatric Setting**
September 2012 – June 2013
Toronto
Director: Sanjay Mehta

**Medical Education Day**
March 27, 2013
Director: Shelly Weiss

**SCHOLARSHIP:**

**CPD Awards Received**

*Department of Paediatric Continuing Education Award 2012-2013*
Suzan Schneeweiss

**CPD Presentations**

**Best Practice in Continuing Education Webinar Series**
October 2012 – May 2013
Debbie Hebert, Suzan Schneeweiss, and Jane Tipping

**Best Practice in Continuing Education in 2012**
October 2012
Jane Tipping and Suzan Schneeweiss

**Technology and Learning:**

**Application to Personal Learning**
November 2012
Debbie Hebert and Suzan Schneeweiss

**Evaluation: Beyond the Satisfaction Survey**
March 2013
Debbie Hebert and Suzan Schneeweiss
Innovations:

• Introduction of e-learning software to create innovative engaging e-learning sessions
• Introduction of social media to annual conference

Achievements:

• Annual Paediatric Update Conference – national audience, respiratory subspecialty day
• Collaboration with multiple divisions to promote high quality continuing education events

Objectives for 2013-2014:

• Continue to provide high quality continuing education courses and conference utilizing evidence-based educational strategies
• Promote excellence in continuing education with Department of Continuing Education Award
• Promote innovation in CE with increased use of technology
• Collaborate with educational researchers to promote scholarship in continuing education

Committee Terms of Reference:

1. Committee Name: Continuing Education Committee
2. Type: Standing
3. Chairperson: Suzan Schneeweiss
4. Responsible to: Activities of the Committee are reported through the Director of Continuing Education to the Associate Chair of Education, Department of Paediatrics.
5. Purpose: The continuing education (CE) committee will provide a forum for discussion, promotion and facilitation of continuing professional development and is advisory to the Director of Continuing Education.
6. Authority: Advisory
7. Timeframes, Reporting and Deadlines: Meetings are held 4-5 times annually
8. Composition:
   • Director of Continuing Education
   • At least 3 full-time members of the Department of Paediatrics representing each of the job activity profiles – academic clinician, clinician educator, clinician investigator
   • At least 2 community part-time members of the Department of Paediatrics
   • Library Service representative
   • One administrative staff representative
   • Chair – Suzan Schneeweiss
   • Membership: SickKids Full-time: Michael Weinstein, Melinda Solomon, Eyal Grunebaum, Shelly Weiss, Andrew James, Amina Lalani, Golda Milo-Manson
   • Community Part-time Members: Morty Goldbach and Saul Greenberg
   • Library: Elizabeth Uleryk
   • Conference Administrator: Nicole Winters
9. Staff Support: Conference Administrator: Nicole Winters, full time. Provides support to Director of Continuing Education and Department of Paediatrics conference support.
10. Other Resources:
11. Communication with Executive Committee through: Director of Continuing Education (Chair of Committee)
12. Specific Areas of Responsibility:
13. Approval / Review Date:
Cathy Evans, PhD, MSc, BScPT
Assistant Professor, Department of Physical Therapy, University of Toronto

Cathy Evans is a physiotherapist, Assistant Professor and Director of Continuing Education in the Department of Physical Therapy at the University of Toronto. She completed a PhD from the University of Toronto in technology and education. Her research interests are in online learning to support health professional education as well physiotherapists’ opinions about their role in the rehabilitation management of individuals with conditions such as osteoporosis or obesity.
Overall CEPD Goals:

1. **Enhance Best Practice & Faculty Development for Continuing Education**
   - To offer Clinical Instructors an opportunity to advance their skills in clinical teaching (BMori and RD).
   - To offer faculty an opportunity to advance their skills in online teaching and facilitation (CE).

2. **Advance Research, Innovation & Scholarship**
   - To develop, implement and evaluate online learning modules for the OIEPT Bridging Program.
   - To advance educational scholarship in amongst PT faculty through the newly formed Educational Scholarship committee.
   - To enable faculty to pursue personal goals that support the Dept of PT mission through the completion of their doctoral program in education.
   - To develop innovative online resources for the clinical community.

3. **Strengthen & Grow Practice-Based Education**
   - To strengthen partnerships with national Canadian Physiotherapy Association and divisions to provide educational opportunities.

4. **Foster & Embed Quality Improvement in Continuing Education**

5. **Promote Patient & Public Engagement**
Research:

- Submission to Provosts’ ITIF Fund Summer 2012: The Development of an Online Diagnostic Imaging Course for Canadian and Internationally Educated Physical Therapists.
- Provost funding initiative – EY part of successful team on ITIF project 2011-2012 Faculty Development.

Scholarship:

CPD Awards Received
Fred Fallis Award in Online Learning
May 2012 – C. Evans

CPD Related Grants
Faculty of Medicine CEPD Research Grant 2011 (Fall) E. Yeung

CPD Publications

**CPD Presentations**

**CPD Posters**

**Innovations:**

- Development of Online Learning modules for the Ontario Internationally Educated Physiotherapy Bridging (OIEPB) Program in:
  - Clinical Reasoning and Record Keeping
  - The Canadian Health Care System
  - Research Methods for OIEPB Program (in process).

- The Creation of a Physical Therapy Educational Scholarship Committee (Chair E. Yeung and C. Evans).

- The Development of an Online Imaging Course for Physical Therapists (in process).
Achievements:
The Department of Physical Therapy submitted a proposal and was awarded funding from the Ontario Ministry of Citizenship and Immigration to create and offer a program for internationally educated physiotherapists.

Objectives for 2013-2014:
To be approved.

1. To initiate and organize Continuing Education and professional development activities, which promote the advancement of the body of knowledge relevant to Physical Therapists, and others involved in working with Physical Therapists.
   - Complete and pilot the Imaging for Physiotherapists Course
   - Evaluation of OIEPT courses
   - Develop and Offer Obesity and Diabetes Course

2. To cooperate with other professional groups to sponsor, plan and present continuing professional development to foster a multi-disciplinary approach to rehabilitation.
   - Collaborate with Departments of OT and Anatomy to offer Brain Matters Course.

3. To develop a role for the Educational Scholarship Committee in Continuing Education.

Committee Terms of Reference:

1. **Committee Name:**
   Physical Therapy - Continuing Education and Professional Development Committee

2. **Type:** Standing

3. **Chairperson:** Dr. Cathy Evans

4. **Responsible to:**
   Chair of Physical Therapy, Dr. Katherine Berg

5. **Purpose:** Continuing Professional Development may be defined as any education or training following completion of the basic professional degree, which serves to maintain develop or increase knowledge, interpretive and reasoning abilities, assessment and treatment techniques, or interpersonal and professional performance which will enhance the practice of physical therapy.

6. **Authority:**

7. **Timeframes, Reporting and Deadlines:**
   A minimum of 5 meetings will be held, on alternate months. If necessary, additional meetings will be called by the Chairperson. A member’s status can be reviewed if he/she misses 3 consecutive meetings. Annual report to the Executive Committee and Chair once per year.

8. **Composition:** It is recommended that the Chairperson be a full-time member of the Physical Therapy Academic Faculty, but that this is not a mandatory requirement. The Committee is recommended to be composed of at least 5 Physical Therapists representing various areas of physical therapy. The Department Chair will be and ex-officio member.

9. **Staff Support:** Administrative

10. **Other Resources:** Not specific to CE activity

11. **Communication with Executive Committee through:** Chair
12. **Specific Areas of Responsibility:**

All potential course proposals from faculty must be submitted to the Liaison member prior to approval to proceed.

- To initiate and organize Continuing Education and professional development activities, which promote the advancement of the body of knowledge relevant to Physical Therapists, and others involved in working with Physical Therapists.

- To incorporate the Scope of Practice and long-term plans of the profession in the provision of Continuing Education and professional development activities. This includes promotion of evidence-based practice, and sense of responsiveness to the reported needs of the Physical Therapy community with respect to the Scope of Practice.

- To monitor the quality of content and delivery of programs offered by this committee in a constructively critical fashion.

- To advise, in a consultative manner, on how the profits generated by this committee might be utilized towards supporting academic and clinical endeavors of Physical Therapists.

- To cooperate with other professional groups to sponsor, plan and present continuing professional development to foster a multi-disciplinary approach to rehabilitation.

- To review the goals and objectives of this committee every two years.

- To participate in Continuing Education initiatives that promote Physical Therapy education and professional awareness for the general public.

13. **Approval / Review Date:** Annual
Sagar V. Parikh, MD, FRCP(C)

Professor and Director of Continuing Mental Health Education
Department of Psychiatry, University of Toronto
Deputy Psychiatrist-in-Chief, University Health Network (UHN)

Dr. Parikh is Deputy Psychiatrist-in-Chief at the University Health Network (UHN) and director of Continuing Mental Health Education at the University of Toronto, where he also is Professor of Psychiatry. Dr. Parikh is the author/editor of two books and over 100 peer reviewed articles and book chapters, as well as the CANMAT Pocket Guide to Depression. Research interests include clinical treatments in mood disorders, health services research, genetics, epidemiology, and educational research. Current major studies include a Knowledge Translation grant in Bipolar Disorder, a Network Catalyst grant for CREST.BD, and a clinical trial for Bipolar Depression, all funded by CIHR. Other current studies include a clinical trial examining the utility of Telephone-Delivered Psychotherapy as an adjunct to medication for Depression, a RCT of Telephone-Delivered CBT for Bariatric Surgery patients, and a study of Workplace Depression. He was awarded the Dave Davis CEPD Research Award from the University of Toronto in 2008 and the R. O. Jones Award for Best Research Paper by the Canadian Psychiatric Association in 2011. He also is a co-author of CANMAT treatment guidelines for Depression and for Bipolar Disorder, Secretary of the International Society for Affective Disorders, and Head, Section of Affective Disorders, World Psychiatric Association. As medical director of Mensante, he helped create a novel internet system for recognition and management of mental disorders. He was honored by the Canadian Psychiatric Association by delivering the Distinguished Member Lecture at the 2007 CPA Annual Meeting. His teaching has won him one international, two national, and three local awards, most recently the Association of Chairs of Psychiatry Award for Excellence in Education in 2005.
Overall CEPD Goals:

1. **Enhance Best Practice & Faculty Development for Continuing Education**
   Further development of faculty was fostered through the 2013 CMHE Annual Retreat, called “GAPS, APPS, AND TECHNOLOGY MAPS: USING TECHNOLOGY IN MEDICAL EDUCATION”, which featured University of Ottawa Professor Ali Jalali explaining various practical uses of technology in medical education, specifically social media and apps. The CMHE committee also provides modest support for research projects and for members to attend conferences connected to scholarship in CE. Finally, the Department of Psychiatry has also launched a separate program of Faculty Development which will enhance both content expertise and education expertise amongst departmental members, as it applies to education at all levels, including CE.

2. **Advance Research, Innovation & Scholarship**
   We have annual retreats that explore topics and foster growth; in 2013, the Technology / Internet retreat fostered plans for new types of CE activity as well as dialogue with learners. Our most important mechanism is the way we run our monthly Continuing Mental Health Education committee meetings, where half the time is allotted to “Group Mentoring”. In that process, several people each spend 10-15 minutes describing CE projects they are undertaking, and get group feedback on design, execution, and evaluation of the project. This has greatly increased the quality of the CE programs.

3. **Strengthen & Grow Practice-Based Education**
   A significant amount of training involves improvement of psychotherapy; often this involves recording of psychotherapy sessions when the student is in their normal practice, with subsequent review of the recording and supervision provided during a CE event. A large emphasis on on-line training, particularly with respect to smoking cessation and addictions more broadly, allows for pragmatic implementation of CE at the level of the patient. Our faculty have also developed and now published in book form, a series of CE training programs designed for implementation in rural and Northern Ontario called “CE to Go”. This provides highly context-relevant and practical education for those practice settings. See also (4) below.

4. **Foster & Embed Quality Improvement in Continuing Education**
   The Department of Psychiatry had a review of its CE mandate in 2012, and starting September 2013, the committee’s name has been changed to Continuing Professional and Practice Development. The new mandate, coupled with the appointment of a new Director Dr. Sanjeev Sockalingam, will expand the focus of CE in two major ways: (a) a new focus on point-of-care interventions and (b) integration of quality improvement initiative with traditional CE.

5. **Promote Patient & Public Engagement**
   Public education is another important area, with ongoing collaboration with the Mood Disorders Association of Ontario in the production of public education. Significant public and provider initiatives were also done to combat stigma associated with mental illness. The Department held the first-ever MINDFEST, a celebration of mental health and neuroscience information for the community, held as a large “open-house” at Hart House. In addition, an international conference of the Society for the Study of Psychiatry and Culture was co-hosted by the Department of Psychiatry, with a theme “Shame and Silence: Addressing the Stigma of Mental Illness”. These involved both public and provider engagement.

Director: Kwame Mckenzie

**Refugee Mental Health Online Training Course**

May 1, 2013 – February 1, 2014
Web-Based
Director: Kwame Mckenzie

**The Reitman Centre CARERS Program 3-Day Training for Reitman Centre CARERS Program Group Facilitators**

May 1, 2013 – December 31, 2013
60 Murray Street, L-1 012, Toronto
Director: Joel Sadavoy

Scholarship:

- CPD Awards Received
- CPD Related Grants
- CPD Publications
- CPD Presentations

This information has not been systematically collected, objective for 2013-2014 academic year.

Innovations:

- Multiple efforts are underway to use social media and Web 2.0 techniques in education.
- Simulation methods in Psychiatry are now embedded in multiple education events.
- Knowledge Translation activities have continued to increase.
- Funded by a CIHR grant, a play was developed and performed to deal with issues of stigma related to mental illness, specifically bipolar disorder. Three “research” performances of the play were done, with pre and post play data collection of questionnaires measuring stigma, as well as qualitative interviews done three months post play. The impact of the play on stigma was substantial in health care providers, and modest on patients who have bipolar disorder. The findings have been presented at CE conferences and are being submitted for publication. Also, the play has been widely disseminated and a new research project has started to measure the impact of watching a DVD version of the play and holding a facilitated discussion subsequently.

Research:

The department remains active in Knowledge Translation (KT), with a number of individuals holding CIHR grants in this area. Many individuals have made presentations on education scholarship at various conferences. Finally, scholarship in education is further demonstrated by various recent educational research publications.
Achievements:

As it has for most of the past decade, the Department of Psychiatry is the largest provider of accredited CE programs in the Faculty of Medicine, as well as the largest academic provider of accredited CE programs in psychiatry world-wide. While 59 Department of Psychiatry programs are shown as accredited through the University of Toronto in the table, there are numerous additional unlisted accredited events such as Grand Rounds. The major 59 programs span the range of formats, including 32 live events which include large conferences aimed predominantly at a wide audience and 2-3 day training institutes designed to impart very specific skills, usually in psychotherapy, 5 longitudinal courses designed to develop skills in participants from the local area, 5 faculty development course which are half or full day events primarily for faculty to acquire or enhance their practical skills, 4 Research Based courses which are one day conferences which focus on the latest developments and findings on a specific scientific topic. The department has also seen an increase in web-based courses, up to 11 in 2012-2013 academic year.

A fuller description of these programs, with course brochures, is available on the CMHE website: http://www.utpsychiatyr.ca/Education/ContinuingEducation/default.asp

Objectives for 2013-2014:

- Continue to lead the Faculty of Medicine in number of CE events produced.
- Develop a systematic method for collection of data on education scholarship in CE within the Department.
- Expand public engagement and public education in Mental health.
- Launch a new direction for the department through the new role and title, Continuing Professional and Practice Development under Dr. Sockalingam, with an enhanced emphasis on quality and on point-of-care education.

Committee Terms of Reference:

Note: TOR likely to change with new leadership in 2013.

1. **Committee Name:**
   Continuing Mental Health Education Committee

2. **Type:**

3. **Chairperson(s):** Director of CMHE program.

4. **Responsible to:** Reports to the Vice-Chair for Education, Department of Psychiatry.

5. **Purpose:** To foster CE and faculty development.

6. **Authority:**

7. **Timeframes, Reporting and Deadlines:**
   Monthly meetings and annual half-day retreat for committee members.

8. **Composition:** Membership is open to members of Department, based on interest and commitment to CE.

9. **Staff Support:** Part-time education assistant provides administrative support for minutes, program development, etc. Committee chair Director of CMHE program.

10. **Other Resources:**

11. **Communication with Executive Committee through:**

12. **Specific Areas of Responsibility:**
   - Oversees departmental CE activities
   - Fosters the “faculty development” of committee members in the creation and execution of CE activities.
   - Reviews education policies relevant to CE
   - Clarifies and provides guidance on links to pharma industry.
   - Provide mutual mentorship and support in CE activities.
   - Enhancing inter-professional collaboration in CE.
   - Provide modest grant support for CE projects and travel to CE conferences.
   - Annual recognition of excellence in CE through selection of Ivan Silver Award competition.

13. **Approval / Review Date:**
Douglas Moseley, MSc, PhD
Assistant Professor and Director of Knowledge Translation
Department of Radiation Oncology, University of Toronto
Medical Physicist, Princess Margaret Hospital, University Health Network
Overall CEPD Goals:

1. **Enhance Best Practice & Faculty Development for Continuing Education**
   - UT DRO will continue to run a minimum of two high quality education events including 1) Target Insight and 2) the Toronto Radiation Medicine Conference (RTI3).
   - Attendance will be increased by 10%, with a focus on national and international participation.
   - The Accelerated Education Program (AEP) will run a minimum of 3 intensive sessions.

2. **Advance Research, Innovation & Scholarship**
   - Investigate novel methods of developing and delivering CE activities using eLearning and ICT technologies.
   - Revise and resubmit research grants for IPE activities in Radiotherapy CE.
   - Prepare 2 new manuscripts on Accelerated Education Program (AEP) projects.
   - Present CE work at national and international meetings.

3. **Strengthen & Grow Practice-Based Education**
   - Provide national and international leadership in CE.
   - Collaborate with existing and new industry partners to explore CE opportunities.

4. **Foster & Embed Quality Improvement in Continuing Education**
   - Enhance collaborations with national and international partners, including one new partner this year.
   - Expand the number of sponsorship opportunities.

5. **Promote Patient & Public Engagement**
   - Develop patient and public education initiatives on topics regarding quality and safety in radiation therapy.

Innovations:

Patient and Public Engagement

Achievements:

1. UTDRO faculty, Nicole Harnett, Tara Rosewell and Caitlin Gillan, provided key leadership for the 2012 International Society of Radiographers and Radiological Technologists (ISRRT) held in conjunction with the Canadian Association of Medical Radiation Technologists in Toronto in June 2012.

2. UTDRO collaborated with the UHN Accelerated Education Program to provide 5 international courses on Image Guided Radiation Therapy and Quality and Safety in Radiation Therapy.

3. Doug Moseley was honoured as the first University of Toronto Department of Radiation Oncology faculty member to receive the University’s Faculty of Medicine Continuing Education and Professional Development Colin R. Woolf Award for Teaching Excellence.

4. UTDRO faculty won 5 awards at the International Society of Radiographers and Radiological Technologists (ISRRT).

5. UTDRO faculty produced a high quality digital education tool to promote quality and safety in radiation therapy.

6. UTDRO faculty collaborated with the Radiation Medicine Program on two unrestricted education industry grants.

7. UTDRO contributed to CE research with 5 peer-reviewed papers, and published abstracts.

Objectives for 2013-2014:

1. UTDRO will continue to run a minimum of two high quality education events including 1) Target Insight and 2) the Toronto Radiation Medicine Conference (RT13).

2. Attendance will be increased by 10%, with a focus on national and international participation.

3. Research into novel methods of developing and delivering CE activities using eLearning and ICT technologies.

4. Revise and resubmit research grants for IPE activities in Radiotherapy CE.

5. Prepare 2 new publications on AEP activities.

6. Provide national and international leadership in CE.

7. Enhance collaborations with national and international partners, including one new partner this year.

8. Increase departmental revenues through CE activities.

9. Collaborate with existing and new industry partners to explore CE opportunities.

10. Continue to develop patient and public education initiatives to promote quality and safety in radiation medicine.
Committee Terms of Reference:

1. **Committee Name:** UTDRO CE Committee
2. **Type:** Standing Committee
3. **Chairperson(s):** Director, Continuing Education
4. **Responsible to:**
   Chair, UT Department of Radiation Oncology
5. **Purpose:** The focus of the committee work is to identify common infrastructure required for CE, set strategic directions and foster productive and active partnerships.
6. **Authority:** Provide recommendations to the Chair of the Department.
7. **Timeframes, Reporting and Deadlines:**
   2 meetings per year
8. **Composition:**
   11 members with 3 executive members
9. **Staff Support:**
   Administrative and managerial support
10. **Other Resources:**
11. **Communication with Executive Committee through:** The Director of CE reports to the Executive Committee.
12. **Specific Areas of Responsibility:**
13. **Approval / Review Date:** December 2011
Susan J. Wagner, BSc (SPA), MSc (CD), Reg. CASLPO S-LP(C)

Senior Coordinator, Clinical Education
Department of Speech-Language Pathology, University of Toronto

Susan is the Senior Coordinator of Clinical Education in the Department of Speech-Language Pathology, Faculty of Medicine, University of Toronto (UT). She has provided leadership and program development in clinical education and been recognized nationally for mentorship in this area. She has also taught courses on principles of clinical practice and was integrally involved in planning and implementing the clinical Master of Health Science curriculum renewal process.

Susan is the inaugural Director of Continuing Education in the Department of Speech-Language Pathology as of September 2012. Susan has given workshops on clinical education, interprofessional education (IPE) and dealing with conflict to health science professionals nationally and internationally. She has been a faculty member in the ehpic IPE leadership continuing education course since its inception in 2005, that is given annually through the Centre for Interprofessional Education to participants from across North America and around the world. In addition, she regularly provides workshops through the Centre for Faculty Development, Faculty of Medicine and is a member of the Education Development Committee there.

Susan was the inaugural Faculty Lead – Curriculum from 2007 – 2012 at the Centre for IPE at the UT where she and her colleagues led the development and implementation of the requisite IPE curriculum for 11 health science programs that began in 2009. This involved creating and integrating IPE core competencies, learning activities and the points for interprofessional education system (PIPEs). Susan has also been integrally involved in the assessment, evaluation and faculty leadership components of the curriculum. She has been an investigator on a variety of research projects including development of an interprofessional objective structured clinical examination (iOSCE) and of IPE cases. The Susan J. Wagner Student Leadership Award in Interprofessional Education was named in her honour and she received the 2008 – 2009 University of Toronto Inaugural Award of Merit for Outstanding Leadership in Advancing Interprofessional Education through the Centre for IPE. As the Speech-Language Pathology Academy Associate in the FitzGerald and Wightman-Berris Academies for 14 years, Susan promoted, developed, implemented and evaluated IPE for students across health sciences and specifically in an IPE curriculum in the Rehabilitation Sciences Sector upon which the UT IPE curriculum was built.

Susan received a B.Sc. in Speech Pathology and Audiology from the University of Alberta and a M.Sc. in Communicative Disorders from the University of Wisconsin-Madison. As a speech-language pathologist, she then worked clinically at the Alberta Children’s Hospital in Calgary prior to coming to the University of Toronto.
Overall CEPD Goals:

1. Enhance Best Practice & Faculty Development for Continuing Education
2. Advance Research, Innovation & Scholarship
3. Strengthen & Grow Practice-Based Education
4. Foster & Embed Quality Improvement in Continuing Education
5. Promote Patient & Public Engagement

Development and implementation of continuing education and professional development initiatives for the Department of Speech-Language Pathology are underway. Our goal is to work with others interprofessionally to develop and deliver content that is relevant, timely and will enable lifelong learning for speech-language pathologists, audiologists, and other health science professions.

Terry Axelrod, MD, MSc, FRCSC

Professor, Department of Surgery, University of Toronto
Chair, Continuing Education and Professional Development Committee
Department of Surgery

Dr. Axelrod has a subspecialty expertise in the area of Upper Limb Trauma and Reconstructive Surgery. He has a strong involvement in the Sunnybrook Regional Trauma Program and his research activities relate to the management of upper extremity fractures. Terry Axelrod has extensive involvement in educational activities of the Division of Orthopaedic Surgery, at the Undergraduate, Post-Graduate and Continuing Education Level. He has been involved as either faculty or the Chair of a multitude of National and International Continuing Education Courses related to Upper Limb Trauma. Dr. Axelrod completed his Orthopaedic training at the University of Toronto. He is a Professor of Surgery at U of T and has been on staff since 1990. He has served as Head of the Division of Orthopaedic Surgery at Sunnybrook Health Sciences Centre from 1995.
Overall CEPD Goals:

1. **Enhance Best Practice & Faculty Development for Continuing Education**
   - Use advances in surgical education and technology to challenge active practitioners to master new surgical skills and enhance competencies.

2. **Advance Research, Innovation & Scholarship**
   - Pursue a wide range of scholarly work based on clinical medical education, skills related research, faculty development, continuing education administration, ethics and legal management.
   - Pursue greater integration of research across disciplines, sites and types of researchers.

3. **Strengthen & Grow Practice-Based Education**
   - Continued use of the University of Toronto Surgical Skills Centre at Mount Sinai Hospital for learning and practicing basic and complex surgical procedures in a laboratory setting, fulfilling the need for technical skills training outside the clinical setting.

4. **Foster & Embed Quality Improvement in Continuing Education**
   - Integrate quality across all continuing education programs of the department.
   - Apply innovative approaches to CE to ensure delivery of integrated patient-centred solutions for improving quality of care.

5. **Promote Patient & Public Engagement**
   - In progress

**Annual Assembly of General Surgeons**
Metropolitan Hotel, Toronto
Director: Andy Smith

**1st Annual Sunnybrook Burn Symposium**
June 4, 2013
Vaughan Estates of Sunnybrook Health Sciences Centre
Director: Marc Jeschke

Research:
Research activity continues to be focused on improving outcomes for patients resulting in better overall patient care.

Innovations:
Hans Kreder and Terry Axelrod are working on a Reduction of Resource Program at Sunnybrook to allow surgeons to continue to be active in the operating room, while making opportunities for younger surgeons to enter practice. Younger surgeons are mentored as the senior surgeons reduce their resource utilization and operating room time.

Objectives for 2013-2014:

1. Development of a longitudinal fellowship of continuing education which will allow a surgeon in practice elsewhere in the province to come and work with a practitioner in the Department of Surgery one half day every other week for six months to become proficient in an area of specialized interest.

2. Promote need of life-long learning, coaching and renewal for practicing surgeons with an array of continuing medical education opportunities in surgery.

3. Encourage senior surgeons to participate in peer mentoring – surgeons working together to educate each other.

Committee Terms of Reference:

1. **Committee Name:** Continuing Education and Professional Development Committee
2. **Type:**
3. **Chairperson:** Terry Axelrod
4. **Responsible to:**
   Vice Chair, Education, Department of Surgery

Acknowledgement

CEPD would like to acknowledge the following peer reviewers for their ongoing support and commitment to ensuring the quality and credibility of University of Toronto accredited continuing education programs. It is their invaluable advice and insightful contributions that assist our broad range of CE programing in meeting the standards and accreditation criteria established by The College of Family Physicians of Canada, the Royal College of Physicians and Surgeons of Canada, and by reciprocal relationships, the American Medical Association, the European Council for Continuing Medical Education, and other governing organizations and bodies as required or appropriate.

2012-2013 Peer Reviewers:

**Mostafa Atri, Medical Imaging**

**John Axler, Family & Community Medicine**

**Yvonne Chan**  
Otolaryngology – Head & Neck Surgery

**Ronald Feld, Medical Oncology**

**Debbie Hebert**  
Occupational Science & Occupational Therapy

**Nadia Ismiil**  
Laboratory Medicine & Pathobiology

**Wai-Ching Lam**

Faculty Council Continuing Education Committee (FCCEC)

Members:
- Dimitri Anastakis
- John Axler
- Yvonne Chan
- Edward Etchells
- Alexandra Ginty
- Debbie Hebert
- Fran Jackson
- Karen Leslie
- Susan Rock
- Suzan Schneeweiss
- Abi Sriharan
- Martina Trinkaus
- David Wiljer

Terms of Reference

1. Committee Name: Faculty Council Continuing Education Committee (FCCEC)
2. Type: Standing
3. Chairperson(s): TBD
4. Responsible To: Faculty Council, Dean
5. Purpose: The role of the committee is to safeguard the standards and quality of the courses and programs offered, certificates and diplomas awarded, and teaching awards. The committee also reviews and recommends to Faculty Council policies pertaining to research in continuing education.
6. Authority: Active
7. Timeframes, Reporting and Deadlines: Committee meets three times per year (September, January, and April)
8. Composition: Six members elected by Council representing the constituencies of continuing education and professional development, including but not limited to:
   - Research in CEPD/knowledge translation
   - CE PD program development
   - Faculty development
   - Community health professional education
   - Public education
   - International continuing education
   - Rehabilitation science
   - Clinical sciences
   - One post-professional trainee
   - One alumnus/alumna of the Faculty of Medicine
   - Director, CE PD
9. Staff Support: Todd Coomber, administrative assistant – sets meeting dates, sends reminders, distributes agendas, records minutes.
10. Other Resources: Meetings are conducted onsite and via teleconference.
11. Communication with Faculty Council through: Todd Coomber
12. Specific Areas of Responsibility:
   a) Courses and Programs Offered
   1. The committee will receive and accept on behalf of Faculty Council annual reports from the Dean or her/his designate clarifying the extent to which the goals and objectives are being met in all aspects of the delivery of continuing education courses and programs, including the faculty development program, patient and public education programs and international continuing education programs.
Faculty Council Continuing Education Committee (FCCEC)

Terms of Reference (cont’d)

II. The committee will review and recommend to Faculty Council major changes proposed by the Dean or her/his designate, in the goals and objectives of all aspects of the delivery of programs and courses prior to their implementation.

III. The committee will receive and approve on behalf of Faculty Council minor changes in the goals and objectives of all aspects of the delivery of all programs and courses prior to their implementation.

b) Research Policy

I. The Committee will review and make recommendations to Faculty Council issues of policy concerning research in continuing education and knowledge translation.

II. Research Policy

III. The Committee will review and make recommendations to Faculty Council issues of policy concerning research in continuing education and knowledge translation.

c) Certificates and Diplomas

I. The Committee will review and approve on behalf of Faculty Council minor changes proposed by the Dean or his/her designate in the requirements for the certificates and diplomas offered in continuing education.

II. The Committee will review and recommend to Faculty Council major changes proposed by the Dean or his/her designate in the requirements for the certificates and diplomas offered in continuing education.
CEPD Executive Committee

**Members:**
- Dimitri Anastakis
- Ross Barclay
- Marc Giacomelli
- Simon Kitto
- Eman Leung
- Lee Manchul
- Susan Rock
- Nancy Salbach
- Suzan Schneeweiss
- Brian Simmons

**Terms of Reference**

1. **Committee Name:** CEPD Executive Committee
2. **Type:** Standing
3. **Chairperson:** Vice Dean CEPD
4. **Responsible To:** Dean
5. **Purpose:**
   - Oversees and manages the portfolio’s educational and research mandates as stipulated by internal University requirements and external accrediting body regulations.
   - Strategic Planning and Implementation
   - Finance Control
   - Human Resources Recruitment and Retention
   - Organization Operations
   - Community Relations
6. **Authority:** Decision making body of CEPD
7. **Timeframes, Reporting and Deadlines:**
   - Meets 9-10 times per academic year
   - Meeting duration 1 hour
   - Meeting schedule to be published with CEPD Academic Calendar
   - Annual CEPD Report
   - Implementation Plan Status Report
8. **Composition:**
   - Chair: Vice Dean CEPD
   - Director CEPD
   - Co-Chairs of RICE
   - CE Research
   - CE Awards
   - Chair: CED&L SPP
9. **Staff Support:** Recorder - Vashty Hawkins
10. **Other Resources:**
    - Education Consultants, CEPD administrative staff
11. **Communication with Executive Committee through:** N/A
12. **Specific Areas of Responsibility:**
    - Oversight of Accreditation
    - Strategic Planning and Implementation
    - Financial Control
    - Faculty Recruitment and Retention
    - Organization Operations
    - Community Relations
Continuing Education Directors & Leaders (CEDL)

**Members:**
- Dimitri Anastakis
- Mostafa Atri
- John Axler
- Terry Axelrod
- Maria Bystrin
- Yvonne Chan
- Cathy Evans
- Ronald Feld
- Vashty Hawkins
- Debbie Hebert
- Kate Hodgson
- Nadia Ismiil
- Simon Kitto
- Wai-Ching Lam
- Karen Leslie
- Lee Manchul
- Rita McDowall
- Douglas Moseley
- Arnold Noyek
- Sagar Parikh
- Laure Perrier
- Susan Rock
- Suzan Schneeweiss
- Martina Trinkaus
- Leslie Vincent
- Susan Wagner
- Brian Wong

**Terms of Reference**

1. **Committee Name:**
   CE Directors and Leaders (CED&L)

2. **Type:** Standing

3. **Chairperson:** Suzan Schneeweiss

4. **Responsible To:** Vice Dean CEPD and CEPD Executive Committee

5. **Purpose:** To foster a strong CEPD community by inviting CE experts to present on a regular basis, providing updates from vice-dean, CE directors and leaders from the community regarding strategic issues and departmental CE activities.

6. **Authority:** Active

7. **Timeframes, Reporting and Deadlines:** Committee meets 7-8 times per year (every 6 weeks, plus end-of-year reception)

8. **Composition:** Identified CE Directors and Leaders from Faculty of Medicine departments and associated health sciences faculties.

9. **Staff Support:** Vashty Hawkins, administrative assistant – sets meeting dates, sends out date reminders/RSPVs, contacts presenters on behalf of committee, books space, AV equipment and catering, records and distributes meeting minutes.

10. **Other Resources:** Meetings are conducted at 500 University Avenue. Speakers come from both within and outside of the university.

11. **Communication with Executive Committee through:** Co-Chairs

12. **Specific Areas of Responsibility:**
    - Provide a forum for exchange of knowledge, ideas and innovations
    - Strengthen and grow the CEPD network
    - Create greater interest and promote CEPD as an academic pathway for promotion
    - Offering input and feedback to existing CEPD FD/professional development activities
    - Develop CEPD key performance indicators and specific outcome measures, and set benchmarks
    - Identify and bring forward common challenges across all portfolios to implementation of the CEPD’s vision, mission, values and strategic plan
    - Identify and bring forward new opportunities that may arise in relation to the CEPD strategic plan.
Research in Continuing Education Committee (RICE)

Members:
- Dimitri Anastakis
- Tatyana Barankin
- Onil Bhattacharyya
- Ryan Brydges
- Joanne Goldman
- Debbie Hebert
- Simon Kitto
- Heather MacNeill
- Jerry Maniate
- Lee Manchul
- Sagar Parikh
- Kathryn Parker
- Laure Perrier
- Savithiri Ratnapalan
- Paula Ravitz
- Paula Rowland
- Nancy Salbach
- Ivan Silver
- Jane Tipping
- Rahim Valani
- Douglas Wooster
- Elizabeth Wooster
- Brian Man-Fai Wong
- Rene Wong
- Catherine Yu

Terms of Reference

1. **Committee Name:** Research in Continuing Education (RICE)
2. **Type:** Standing
3. **Chairperson(s):** Simon Kitto, Scientist – Li Ka Shing Knowledge Institute at St. Michael’s Hospital, Director of Research, CEPD, Faculty of Medicine, University of Toronto; Nancy Salbach, Department of Physical Therapy, Faculty of Medicine, University of Toronto
4. **Responsible To:** Vice Dean CEPD
5. **Purpose:** Began as planning committee for 2007 CEPD research retreat, then repository for data on research arm of CEPD office compiled for CACME accreditation in 2008, then became committee for researchers to network with peers and present updates/works in progress/research rounds.
6. **Authority:** Active
7. **Timeframes, Reporting and Deadlines:** Committee meets 5 times per year (every 2 months)
8. **Composition:** Identified leaders in continuing education research.
9. **Staff Support:** Vashty Hawkins, administrative assistant – sets meeting dates, sends out date reminders/RSPVs, contacts presenters on behalf of committee, books space, AV equipment and catering, records and distributes meeting minutes.
10. **Other Resources:** Meetings are conducted at CEPD conference room, 650-500 University Avenue. Speakers come from both within the university and outside.
11. **Communication with Executive Committee through:** Simon Kitto, Nancy Salbach
12. **Specific Areas of Responsibility:**
   - Updating research and development awards and grant criteria as necessary.
   - Providing opportunity for knowledge exchange and mentoring.
   - Providing forum for committee members to offer updates on their activities.
   - Building community of CE research practice.
   - Exploring theories and frameworks to inform CE research.
CEPFD FACULTY & COMMITTEES

CE Research & Development Grants Committee (CERD)

Members:
Joanne Goldman    Simon Kitto   Eman Leung    Nancy Salbach

Terms of Reference

1. **Committee Name:**
   CE Research and Development Grants Committee (CERD)

2. **Type:** Standing

3. **Chairperson(s):** Simon Kitto, Scientist – Li Ka Shing Knowledge Institute at St. Michael’s Hospital, Director of Research, CEPD, Faculty of Medicine, University of Toronto.

4. **Responsible To:** Vice Dean CEPD

5. **Purpose:** Reviews, ranks, and offers up to $5,000 seed money for research pilot projects within the university community. $25,000 is available for five grants on an annual basis.

6. **Authority:** Active

7. **Timeframes, Reporting and Deadlines:** Committee meets 3 times per year (October, February, and May) to review submissions for funding and award grant money.

8. **Composition:** Peer Reviewers

9. **Staff Support:** Vashty Hawkins, administrative assistant – sets meeting dates, sends out call for submissions and follows up with reminders, compiles and distributes application submissions to committee, informs all submitters(s) regarding committee decision, updates CEPD website regarding criteria changes/successful recipients.

10. **Other Resources:**
    Meetings are conducted via teleconference.

11. **Communication with Executive Committee through:** Dimitri Anastakis

12. **Specific Areas of Responsibility:**
    - Updating/revising awards criteria as necessary
    - Choosing grant recipients on annual basis

Members:
Joanne Goldman    Simon Kitto   Eman Leung    Nancy Salbach
Term of Reference

1. **Committee Name:** CE Awards Committee
2. **Type:** Standing
3. **Chairperson(s):** Lee Manchul, Department of Radiation Oncology, Faculty of Medicine, University of Toronto
4. **Responsible To:** Vice Dean CEPD
5. **Purpose:** Formed to review, rank and award the following awards to successful recipients on an annual basis:
   - Colin Woolf Excellence in Teaching
   - Colin Woolf Excellence in Course Coordination
   - Colin Woolf Contribution to Long-term CE
   - Fred Fallis Online Award
   - Dave Davis Research Award
   - David Fear Fellowship
   - Ivan Silver Innovation
   - IPE Health Care Team
6. **Authority:** Active
7. **Timeframes, Reporting and Deadlines:** Committee meets annually in January.
8. **Composition:** Peer Reviewers
9. **Staff Support:** Vashty Hawkins, administrative assistant – sets meeting dates, sends out call for nominations and follows up with reminders, compiles supporting documentation for nominations, distributes nomination materials to committee, informs all nominees regarding committee decision, liaises with Educational Achievement Awards Day committee regarding winners, updates CE website regarding criteria changes/successful recipients.
10. **Other Resources:** Meetings are conducted at the CEPD office, 650-500 University Avenue (with teleconferencing available for committee members if necessary).
11. **Communication with Executive Committee through:** Dimitri Anastakis
12. **Specific Areas of Responsibility:**
   - Updating/revising awards criteria as necessary.
   - Choosing award winners on annual basis.
   - Raising the profile of CE in the university community via awards.
