

Highlights from SACME's 2019 Annual Meeting

Continuing Professional Development would like to congratulate our colleagues for their strong presence at the 2019 Annual Meeting of the Society for Academic Continuing Medical Education (SACME), held in Charleston, South Carolina recently. CPD was well represented in both the peer-reviewed academic workshops, oral and poster presentations as well as the awards ceremony at the end of the conference.

SACME is an organization whose mission is to promote the highest value in patient care and health of the public through the scholarship of continuing medical and interprofessional education. The organization offers many learning opportunities related to CPD practice and scholarship and we encourage our community members to consider becoming involved. The next SACME Annual Meeting will be held February 18–21, 2020 in Miami, FL.

Awards & Grants
