Canadian Orthopaedic Foot & Ankle Symposium

Dear Colleague,

The continued success of the University of Toronto's Biennial Foot & Ankle Symposium has been due to a combination of excellent speakers, dedicated participants, and enthusiastic exhibitors. With this in mind, we welcome you to join us at the 13th Biennial Canadian Orthopaedic Foot & Ankle Symposium on April 19-21, 2018 at Sheraton Centre Hotel, Toronto, Canada.

The Biennial Foot and Ankle Symposium is Canada's largest surgical Foot & Ankle meeting. Not only does it provide a centralized forum for practising orthopaedic surgeons to stay current, it allows for an opportunity to meet face to face. Biennial Foot & Ankle Symposium is the yearly hub for the Canadian orthopaedic community.

This year's topics include: MIS foot surgery; Multi-directional Ankle Instability; Ankle Joint Preservation Surgery; Biologics – Bone / soft tissue healing; Expanded Professor Round and Watercooler Discussion, be part of the Program; Live Patient Case; Case Based Presentations; End-Stage Ankle Arthritis.

We heard your feedback. Back by popular demand! Join our Hands on Cadaver Lab held at the University of Toronto Surgical Skills Centre on April 19, 2018, led by members of the Canadian Orthopaedic Foot & Ankle Society. The day will incorporate the practical application of this year's hot topics: latest techniques in ankle arthroplasty and minimally invasive foot surgery. Limited enrollment. Register early!

If there is any further information you require, please don't hesitate to contact Natalie Halsband (Event Planner, CMP) or ourselves.

Best regards,

Timothy Daniels MD, FRCSC
Co-Chair
Associate Professor of Orthopaedics
St. Michael's Hospital, Toronto

Johnny Lau MD, FRCSC
Co-Chair
Assistant Professor of Orthopaedics
University Health Network, Toronto Western Hospital
