

MyGoals

Multidisciplinary Gynecologic Oncology Annual Lecture Series 2021

Thursday, October 28, 2021

Dear Sponsors,

The continued success of the Multidisciplinary Gynecologic Oncology Annual Lecture Series 2021 meeting is due to a combination of excellent speakers, dedicated participants, and enthusiastic exhibitors. This year we will be hosting a one-day digital symposium that will be designed to highlight the current management in Gynecologic Oncology.

This one-day virtual program focus will include:

- Precision therapy in Endometrial Cancer (PORTEC 3 – immunotherapy treatment & AE management)
- Personalized Treatment in Ovarian
- Cancer (Surgical innovation – PARP inhibitor – feedback from the community)

The lecture presentations will be done by Canadian experts across gynecologic oncology disease sites and their multidisciplinary colleagues (Gynecologic Oncologists, Medical Oncologists, Radiation Oncologists, General Gynecologists, Pathologists, General Practitioner-Oncology, Oncology Nurses, Oncology Pharmacists and Genetic Counsellors).

We hope you will join us for this unique educational program and encourage you to reach out to us, as exhibitor space is limited and priority is given to those that commit early.

Taymaa May MD MSc FRCSC
Gynecologic Oncologist
Princess Margaret Cancer Centre
