Paediatric Emergency Medicine

Welcome!

This page will provide you with information you need in preparation for your presentation at the [2020 Paediatric Medicine Conference \(PEM\)](#) on [Thursday and Friday, November 5th and 6th 2020](#). Please review each section and if you have any questions please contact [Brittany Waters \(mailto:cpd.confserv@utoronto.ca\)](mailto:cpd.confserv@utoronto.ca) for guidance.

Key Dates & Deadlines

~~Week of October 13th:~~ Schedule Technical Meeting

~~Monday, October 26th:~~ Submit COI & Release Forms

~~Monday, October 26th:~~ Provide Learning Objectives

Monday, ~~October 30th:~~ Submit Presentation

Digital Conference Platform

The [PEM Conference](#) will be delivered via a customized digital conference platform called Pheedloop. Your presentation will be webcast to this platform via ClickMeeting and your unique presenter link. On the day of the conference, you will be asked to enter the virtual meeting room 15 minutes prior to your start time to test your actual presentation and do one final technical check.

You will receive a unique presenter link to the webcasting platform a week before the conference via email and in the form of a calendar invitation.

Conference Platform Orientation & Technical Meeting

During this one-on-one meeting your Technical Director will review the conference platform and its functionality, explain the technical requirements and process for livestreaming your presentation, discuss the options and functionality for the interactivity requirement of your presentation, your broadcast equipment, and answer any questions you may have. Since we are conducting a technical test, we strongly recommend that you be in the same location from which you will be presenting, with the same computer/camera/microphone setup.

Learning Objectives

Interactivity

Click each item for more information

It is a requirement for accreditation that all presentations include a minimum of 25 percent interactivity. This is typically achieved through Q&A or audience response (polling).

Details of how to implement interactivity will be reviewed at the Platform Orientation and Technical Rehearsal meeting.
