

Highlights from SACME's 2020 Annual Meeting

Continuing Professional Development would like to congratulate our faculty and staff colleagues for a strong presence at the 2020 Annual Meeting of the Society for Academic Continuing Medical Education (SACME), held in Miami, Florida. CPD was well represented in both the peer-reviewed academic workshops and oral and poster presentations. Our faculty colleagues also presented the plenary keynote: *Developing Educators for Healthcare Environments Affected by Disruption and an experiential activity focused on Evolving for Change*.

SACME is the organization for continuing medical education professionals in North America. The organization offers a wealth of resources to a community of members dedicated to the advancement of continuing medical education for the ultimate improvement of patient care. Our team is looking forward to the next SACME Annual Meeting which will be held February 23 – 26, 2021 in Marina del Rey, California.

Below is a list of SACME presentations in which University of Toronto affiliated faculty and staff were involved:

Oral Abstract Presentations

Leadership in Change Management

- Savithiri Ratnapalan, MBBS, Med, PhD

Changes in Lifelong Learning Through Project ECHO Participation: The Potential Impact of CPD

- Sanjeev Sockalingam, MD, MHPE, FRCPC; Thiyake Rajaratnam, MSc; Amanda Gambin, PhD; Jenny Hardy, OT (Reg). Ont.; Eva Serhal, MBA, PhD (C); Allison Crawford, MD, PhD

Agency and Affordances: Exploring the Integration of a Novel Continuing Education Strategy

- Walter Tavares, PhD; Manpreet Saini, Msc; Paula Rowland, PhD

The Changing Landscape of Continuing Professional Development/Continuing Medical Education (CPD/CME) in Canada: A Scoping Review
